SUBJECT INDEX

Acanthus
Phloeospora aethiopica sp. nov. on *Acanthus* spp. from Ethiopia 1019
Acetic acid
Effects of acetic acid, propionic acid and urea on inoculum production by *Gibberella zeae* in maize and wheat residues 409
Achlya bisexualis
Effect of monensin on the lipid composition of *Achlya bisexualis* 480
Acid phosphatase
Regulation of acid and alkaline phosphatases of *Cladosporium cucumerinum* by inorganic phosphate 720
Acremonium
Production and regulation of β-glucanases in *Acremonium* and *Cephalosporium* 352
Acremonium coenophialum
Variation among isolates of *Acremonium* endophytes (*A. coenophialum* and possibly *A. typhinum*) from tall fescue (*Festuca arundinacea*) 1123
Acremonium lolii
Variation within isolates of *Acremonium* endophytes from perennial ryegrasses 918
Acremonium typhinum
Variation within isolates of *Acremonium* endophytes from perennial ryegrasses 918
Variation among isolates of *Acremonium* endophytes (*A. coenophialum* and possibly *A. typhinum*) from tall fescue (*Festuca arundinacea*) 1123
Actin
Actin in *Allomyces arbuscula* 499
Aerial dissemination
Occurrence of airborne spores of fungi causing grain mould over a sorghum crop 1315
Aflatoxin
Effect of the lipid fraction of sunflower seeds on aflatoxin production by *Aspergillus parasiticus* 254
Agaricus bisporus
Effect of *Pseudomonas putida* on hyphal growth of *Agaricus bisporus* 699
Agaricus bitorquis
Determination of genes and subunit composition of three isozyme activities in *Agaricus bitorquis* 851
Agrocybe aegerita
Parasexual analysis in the basidiomycete mushroom *Agrocybe aegerita* common-B and common-AB crosses 465
Alkaline phosphatase
Regulation of acid and alkaline phosphatases of *Cladosporium cucumerinum* by inorganic phosphate 720
Allium
Light and electron microscopical studies of interactions between *Allium* spp. and *Peronospora destructor* 278
In vitro screening for the identification of potential biocontrol agents of *Allium* white rot 430
Allium porrum
Effect of photon irradiance on the development and activity of VA mycorrhizal infection in *Allium porrum* 741
Allocasurina
Nuclear behaviour in the basidiomes and ectomycorrhizas of *Hebeloma westraliense* sp. nov. 683
Allomyces
Allomyces zoospores synchronously released in high yields for deoxyribonucleic acid analysis 492
Allomyces arbuscula
Actin in *Allomyces arbuscula* 499
Allomyces macrogynus
Maturation of meiosporangia in *Allomyces macrogynus* 495
Development of asexual organisms from meiospores of *Allomyces macrogynus* 1127
Induction of germination of spores of *Allomyces macrogynus* by small peptides 1261
Alnus glutinosa
Aquatic hyphomycetes and other fungi in living aquatic and terrestrial roots of *Alnus glutinosa* 543
Alternaria brassicae
Relationship between conidial concentration, germling growth, and phytoalexin production by *Camelina sativa* leaves inoculated with *Alternaria brassicae* 928
Alternaria tenuissima
Occurrence of airborne spores of fungi causing grain mould over a sorghum crop 1315
Amanita
South African fungi: the genus *Amanita* 80
Amanita foetidissima
South African fungi: the genus *Amanita* 80
Amanita veldiei
South African fungi: the genus *Amanita* 80
Ameghiniella australis
On the synonymy of *Ameghiniella australis* and *Ionomidotis chilensis* 1131
Ameghiniella australis* subsp. *valdiviana
On the synonymy of *Ameghiniella australis* and *Ionomidotis chilensis* 1131
Ammophila breviligulata
The spatial dispersion of spores of vesicular-arbuscular mycorrhizal fungi in a sand dune: microscale patterns associated with the root architecture of American beechgrass 952
Amylase
Amylase as an extracellular enzyme from plasmodia of myxomycetes
Anamorphs
The anamorph of *Tylophoron moderatum* 290
A comparative study of teleomorphs and anamorphs of *Pleurotus cystidiosus* and *Pleurotus smithii* 1264
Anastomosis groups
Biochemical and serological comparison of lectins from different anastomosis groups of *Rhizoctonia solani* 1235
Antagonism
Effect of water potential on microbial antagonism to *Pyrenophora tritici-repentis* in wheat residue 308
Antibiotic activity
Production of gliotoxin by *Gliocladium virens* as a function of source and concentration of carbon and nitrogen 1242
An echinocandin from an endophytic *Cryptosporiopsis* sp. and *Pezicula* sp. in *Pinus sylvestris* and *Fagus sylvatica* 1439
Antibiotics
Influence of iron depletion and antifungal antibiotics on cell surface hydrophobicity of *Candida albicans* 1312
Antifungal activity
Effects of *Tuber* metabolites on the rhizospheric environment 1355
Relationship between flavipin production by *Epicoccum nigrum* and antagonism against *Monilinia laxa* 1375
Antifungal activity in crude extracts of marine red algae 1433
Antigens
Immunocytochemical localisation of a specific antigen in cell walls of *Penicillium islandicum* 1369
Studies of *Serpula lacrymans* mycelial antigens by Western blotting techniques 1423
Antromycopsis broussonetiae
A comparative study of teleomorphs and anamorphs of *Pleurotus cystidiosus* and *Pleurotus smithii* 1264

Antromycopsis smithii
A comparative study of teleomorphs and anamorphs of *Pleurotus cystidiosus* and *Pleurotus smithii* 1264
Aphanomyces euteiches
Evaluation of the forma specialis concept in *Aphanomyces euteiches* 147
Apiotrichum porosum
Identification of ubiquinone isoprenologues in *Apiotrichum porosum* and a strain of *Candida humicola* 639
Apothecial formation
Effect of sucrose concentration on sclerotia production and subsequent apothecial formation by *Sclerotinia sclerotiorum* 195
Aquatic fungi
Changes in the concentration of aquatic hyphomycete spores in Lees Creek, ACT, Australia 178
A dynamic model of fungal spores in a freshwater stream 184
Aquatic hyphomycetes
Aquatic hyphomycete communities in the river Teign. IV. Twig colonization 413
Aquatic hyphomycetes and other fungi in living aquatic and terrestrial roots of *Alnus glutinosa* 543
Relationships between growth and sporulation of aquatic hyphomycetes on decomposing leaf litter 843
Arachis hypogaea
The effects of the fungicide propiconazole (Tilt(R)) on the ground nut shell mycobiota 571
Areca catechu
Comparison of chemical components of healthy and spoiled areca nut 747
Aristastoma camarographioides
Observations on the genus *Aristastoma* 1151
Armillaria gallica
Identity of *Armillaria* isolates used in studies of rhizomorph behaviour and pathogenicity 1437
Armillaria mellea
Identity of *Armillaria* isolates used in studies of rhizomorph behaviour and pathogenicity 1437
Armillaria ostoyae
Identity of *Armillaria* isolates used in studies of rhizomorph behaviour and pathogenicity 1437
Ascocarp development
Ascocarp development and cytology of *Cyclaneusma minus* 795
Ascochyta cypericola
Morphogenesis and ultrastructure of the conidiomata of *Ascochyta cypericola* 785
Ascospore development
Ascospore development in *Ceratocystis moniliformis* 96
Ultrastructure of ascosporogenesis in *Ophiostoma davidsonii* 725
Ascus development
Ascospore development in *Ceratocystis moniliformis* 96
Aspergillus
Nephrotoxic fungi in a Yugoslavian community in which the Balkan nephropathy is hyperendemic 660
Comparison of chemical components of healthy and spoiled areca nut 747
Use of API-Zym strips and 4-nitrophenyl substrates to detect and quantify hydrolytic enzymes in media and grain colonized with *Aspergillus*, *Eurotium* and *Penicillium* species 834
Aspergillus allliaceus
Effects of *Tuber* metabolites on the rhizospheric environment 1355
Aspergillus flavus
Antifungal activity in crude extracts of marine red algae 1433
Aspergillus fumigatus
Antifungal activity in crude extracts of marine red algae 1433
Aspergillus giganteus
The effect of light intensity and glucose concentration on the development of *Aspergillus giganteus* mutant *alba* 1197
Aspergillus nidulans
Effects of nutritional status of *Aspergillus nidulans* on its nuclease activity 792
Location of invertase in *Aspergillus nidulans*: release during hyphal wall digestion and secretion by protoplasts 1270
Aspergillus parasiticus
Effect of the lipid fraction of sunflower seeds on aflatoxin production by *Aspergillus parasiticus* 254
Asterina
Revision of Australian Asteraceae: *Asterina* species on Winteraceae and Eupomatiaceae 731
Asterina oppositipodia
Revision of Australian Asteraceae: *Asterina* species on Winteraceae and Eupomatiaceae 731
Asterina queenslandica
Revision of Australian Asteraceae: *Asterina* species on Winteraceae and Eupomatiaceae 731
Asterinaceae
Revision of Australian Asteraceae: *Asterina* species on Winteraceae and Eupomatiaceae 731
ATPase activity
Preparation of highly purified plasma membrane vesicles of controlled orientation from *Penicillium cyclopium* 1303
Aureobasidium microstictum
Screening of yeasts isolated from decayed wood for lignocellulose-degrading enzyme activities 1299
Aureobasidium pullulans
Effect of pH and the initial concentration of yeast extract on regulation of dimorphism and exopolysaccharide formation of *Aureobasidium pullulans* in batch culture 220
Auricularia auricula-judae
Liberation of ballistospores in *Tilletiopsis* 1393
Autolysis
Degradation of chitosan in the autolysis of Mucorales 217
Axenic culture
Axenic culture of *Peridermium pini* 108
Baccharis coridifolia
Ceratopycnidium baccharidicola sp. nov., from *Baccharis coridifolia* in Argentina 1014
Bagcheea taiwanensis
Bagcheea taiwanensis sp. nov. from Taiwan 895
Balkan Nephropathy
Nephrotoxic fungi in a Yugoslavian community in which the Balkan Nephropathy is hyperendemic 660
Ballistospore discharge
Liberation of ballistospores in *Tilletiopsis* 1393
Bark beetles
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Oxygen deficiency and spruce resin inhibition of growth of blue stain fungi associated with *Ips typographus* 1387
Barley
Identification and characterisation of isolates of *Typhula* causing snow rot of winter barley in the United Kingdom 995
Basidiome development
Cultural studies on the genus *Termitomyces* in South Africa. I. Macro- and microscopic characters of basidiome context cultures 435
Effect of *Pseudomonas putida* on hyphal growth of *Agaricus bisporus* 699
Structure of the capitate aerial organs of *Mycena cystidiosa* 1065
Differentiation in agaric basidiomata and phylogenetic problems 1249
Ontogenetic stages from coenocyte to basidiome and their relation to phenoloxidase activity and colonization processes in *Phanerochaete magnoliae* 1414
Basidiome production
A simple method for producing basidiomes of *Serpula lacrymans* in culture 375
Basidiomycetes
Influx of ^{137}Cs into hyphae of basidiomycete fungi 1047
Differentiation in agaric basidiomata and phylogenetic problems 1249
Basidium development
A view of the active basidium in Heterobasidiomycetes 618
Laccaria fraterna, a common ectomycorrizal fungus with mono- and bi-sporic basidia and multinucleate spores: comparison with the quadri-sterigmate, binucleate spored *L. laccata* and the hypogeous relative *Hydnangium carneum* 689
Bathyascus
A new species of *Bathyascus* from Indian mangroves 370
Bathyascus mangrovei
A new species of *Bathyascus* from Indian mangroves 370
Beauveria bassiana
Endogenous reserves and survival of blastospores of *Beauveria bassiana* harvested from carbon and nitrogen limited batch cultures 821
Influence of cultural conditions on the virulence of conidia and blastospores of *Beauveria bassiana* to the green leaf hopper, *Nephotettix virescens* 829

Benomyl
Genetic basis of resistance to benzimidazole and dicarboximide fungicides in *Botryotinia fuckeliana* (*Botrytis cinerea*) 943

Biocontrol
In vitro screening for the identification of potential biocontrol agents of *Allium* white rot 430
Biodiversity
Presidential Address 1990: The fungal dimension of biodiversity: magnitude, significance, conservation 641
Biological control
Endogenous reserves and survival of blastospores of *Beauveria bassiana* harvested from carbon and nitrogen limited batch cultures 821
Influence of cultural conditions on the virulence of conidia and blastospores of *Beauveria bassiana* to the green leaf hopper, *Nephotettix virescens* 829
Interactions between *Pythium oligandrum* and the fungal footrot pathogen of peas 861
Blastospores
Endogenous reserves and survival of blastospores of *Beauveria bassiana* harvested from carbon and nitrogen limited batch cultures 821
Influence of cultural conditions on the virulence of conidia and blastospores of *Beauveria bassiana* to the green leaf hopper, *Nephotettix virescens* 829
Blue stain fungi
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Boron
Boron, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 74
Botryodiplodia theobromae
Growth and infectivity of *Botryodiplodia theobromae* causing stem-end rot of mango 405
Botryotina fuckeliana
Genetic basis of resistance to benzimidazole and dicarboximide fungicides in *Botryotinia fuckeliana* (*Botrytis cinerea*) 943
Botrytis cinerea
Genetic basis of resistance to benzimidazole and dicarboximide fungicides in *Botryotinia fuckeliana* (*Botrytis cinerea*) 943
Occurrence and properties of acid invertase in cultures of *Botrytis cinerea* 1321
Branch formation
Low calcium concentrations induce increased branching in *Fusarium graminearum* 561
Brassica napus* ssp. *oleifera
The biology of *Mycosphaerella capsellae* sp. nov., the teleomorph of *Pseudocercosporella capsellae*, cause of white leaf spot of oil seed rape 1334
Calcium
Calcium, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 64
Low calcium concentrations induce increased branching in *Fusarium graminearum* 561
Caliciales
Catenomycopsis rosea gen. et sp. nov. (Hyphomycetes), anamorph of *Caenothecopsis haematopus* 556
Camelina sativa
Relationship between conidial concentration, germling growth, and phytoalexin production by *Camelina sativa* leaves inoculated with *Alternaria brassicae* 928
Candida
Yeasts associated with lamb 57
Candida albicans
Chitin synthetase activity in *Candida albicans*: subcellular distribution in yeast cells and protoplasts 513
Influence of iron depletion and antifungal antibiotics of cell surface hydrophobicity of *Candida albicans* 1312
Antifungal activity in crude extracts of marine red algae 1433
Candida humicola
Identification of ubiquinone isoprenologues in *Apiotrichum porosum* and a strain of *Candida humicola* 639
Cankers
Genetic variability and population structure in the canker pathogen *Crumenulopsis sororia* 521
Carbon dioxide
The quantity and fate of carbon assimilated from $^{14}CO_2$ by *Fusarium oxysporum* grown under oligotrophic and near oligotrophic conditions 1345
Radiolabel distribution into stromata of *Claviceps purpurea* from sclerotia pulse-labelled parasitically with ^{14}C 1402
Catenomycopsis
Catenomycopsis rosea gen. et sp. nov. (Hyphomycetes), anamorph of *Chaenothecopsis haematopus* 556
Catenomycopsis rosea
Catenomycopsis rosea gen. et sp. nov. (Hyphomycetes), anamorph of *Chaenothecopsis haematopus* 556
Cell wall composition
Cell wall structure and composition of cultured mycobionts from the lichens *Cladonia macrophylla*, *Cladonia caespiticia* and *Physcia stellaris* (Lecanorales, Ascomycetes) 905
Cellulase
Extracellular hydrolytic enzyme production by pathogenic strains of *Fusarium oxysporum* f. sp. *elaeidis* 116
Cellulolytic activity
The effect of Junlon PW110 and Tween 80 on the production of cellulolytic enzymes by *Coprinus cinereus* 1077
Cephalosporium
Production and regulation of β-glucanases in *Acremonium* and *Cephalosporium* 352
Ceratocystis moniliformis
Ascospore development in *Ceratocystis moniliformis* 96
Ceratopycnidium baccharidicola
Ceratopycnidium baccharidicola sp. nov., from *Baccharis coridifolia* in Argentina 1014
Ceratosporella disticha
A new species of *Ceratosporella* and *Tripsporium lambdaseptatum* (Matsush.) comb nov. from Malaysia 158
Cercospora pachirae
A new combination for *Cercospora pachirae* 767
Chaenothecopsis haematopus
Catenomycopsis rosea gen. et sp. nov. (Hyphomycetes), anamorph of *Chaenothecopsis haematopus* 556
Chaetospora
New names for *Chaetospora* and its type species 768
Chaetospora quezelii
New names for *Chaetospora* and its type species 768
Chemotaxonomy
Distribution of ubiquinones in *Penicillium* and related genera 705
Chitin assay
A chitin assay for the enumeration of *Plasmodiophora brassicae* resting spores in clubroot tissue 879
Chitin synthetase
Chitin synthetase activity in *Candida albicans*: subcellular distribution in yeast cells and protoplasts 513
Chitosan
Degradation of chitosan in the autolysis of Mucorales 217
Cladonia caespiticia
Cell wall structure and composition of cultured mycobionts from the lichens *Cladonia macrophylla*, *Cladonia caespiticia* and *Physcia stellaris* (Lecanorales, Ascomycetes) 905
Cladonia macrophylla
Cell wall structure and composition of cultured mycobionts from the lichens *Cladonia macrophylla*, *Cladonia caespiticia* and *Physcia stellaris* (Lecanorales, Ascomycetes) 905
Cladosporium cucumerinum
Regulation of acid and alkaline phosphatases of *Cladosporium cucumerinum* by inorganic phosphate 720
Cladosporium herbarum
Comparison of chemical components of healthy and spoiled areca nut 747
Clathraceae
Neolysurus: a new genus in the Clathraceae 1230
Claviceps africana
Claviceps africana sp. nov.; the distinctive ergot pathogen of sorghum in Africa 1101
Claviceps purpurea
Parasitic interactions between *Claviceps purpurea* strains in wheat and an acute necrotic host response 807
Radiolabel distribution into stromata of *Claviceps purpurea* from sclerotia pulse-labelled parasitically with ^{14}C 1402
Claviceps sorghi
Claviceps africana sp. nov.; the distinctive ergot pathogen of sorghum in Africa 1101
Cochliobolus heterostrophus
Genetic analysis and characterization of *Cochliobolus heterostrophus* colour mutants 49
Codinaea
Key to *Dictyochaeta* and *Codinaea* species 1224
Coelomycetes
Compsosporiella deightonii gen. et sp. nov. (Coelomycetes) from Sierra Leone 1289

Colletotrichum
Species of *Colletotrichum* on *Xanthium* (Asteraceae) with comments on some taxonomic and nomenclatural problems in *Colletotrichum* 1175
Colletotrichum gloeosporioides
Factors influencing the germination of pathogenic and weakly pathogenic isolates of *Colletotrichum gloeosporioides* on leaf surfaces of *Stylosanthes guianensis* 227
Morphological and physiological characters of two isolates of *Colletotrichum gloeosporioides* from rubber (*Hevea brasiliensis*) 1085
Community structure
Analysis of co-occurrence in a fungal community 504
Relationships between growth and sporulation of aquatic hyphomycetes on decomposing leaf litter 843
Compsosporiella
Compsosporiella deightonii gen. et sp. nov. (Coelomycetes) from Sierra Leone 1289
Compsosporiella deightonii
Compsosporiella deightonii gen. et sp. nov. (Coelomycetes) from Sierra Leone 1289
Concanavalin A
Extracellular concanavalin A-binding sites during early interactions between *Pinus banksiana* and two closely related genotypes of the ectomycorrhizal basidiomycete *Laccaria bicolor* 357
Conidia
Conidia of *Polyporus varius* 246
Influence of cultural conditions on the virulence of conidia and blastospores of *Beauveria bassiana* to the green leaf hopper, *Nephotettix virescens* 829
The effect of mist particles on the dispersal of *Drechslera teres* conidia 889
Conidiogenesis
Analysis of conidium ontogeny in anamorphs of *Ophiostoma*: *Pesotum* and *Phialographium* are synonyms of *Graphium* 1328
Coniochaeta cyprueaspora
Coniochaeta cyprueaspora sp. nov. with a *Paecilomyces* conidial state 510
Coniothyrium minitans
Interactions between *Coniothyrium minitans* and sclerotia 295
Conservation
Presidential Address 1990: The fungal dimension of biodiversity: magnitude, significance, conservation 641
Copper
Effect of copper on tyrosinase activity and polyamine content of some ectomycorrhizal fungi 268
Tolerance of copper by entomogenous fungi and the use of copper-amended media for isolation of entomogenous fungi from soil 1140
Coprinus cinereus
The effect of Junlon PW110 and Tween 80 on the production of cellulolytic enzymes by *Coprinus cinereus* 1077
Coprinus congregatus
Homokaryon-dikaryon phenotypic switching in an arginine requiring mutant of *Coprinus congregatus* 776
Coprophilous fungi
Two interesting coprophilous fungi from Spain 243
Crumenulopsis sororia
Genetic variability and population structure in the canker pathogen *Crumenulopsis sororia* 521
Cryptococcus
Yeasts associated with lamb 57
Cryptococcus albidus
Screening of yeasts isolated from decayed wood for lignocellulose-degrading enzyme activities 1299
Cryptococcus laurentii
Screening of yeasts isolated from decayed wood for lignocellulose-degrading enzyme activities 1299
Cryptosporiopsis
An echinocandin from an endophytic *Cryptosporiopsis* sp. and *Pezicula* sp. in *Pinus sylvestris* and *Fagus sylvatica* 1439
Cultural characteristics
Cultural studies of four North American species of *Perenniporia* (Aphyllophorales: Polyporaceae) 1113
Appearance of morphological (colonial) mutants in glucose-limited, continuous flow cultures of *Fusarium graminearum* A3/5 1284
Infraspecific variation demonstrated in *Phomopsis leptostromiformis* using cultural and biochemical techniques 320
Curvularia lunata
Occurrence of airborne spores of fungi causing grain mould over a sorghum crop 1315
Cyclaneusma minus
Ascocarp development and cytology of *Cyclaneusma minus* 795
Cytology
Ascocarp development and cytology of *Cyclaneusma minus* 795
Cytospora eucalypticola
A *Valsa* teleomorph for *Cytospora eucalypticola* 1253
Dactylaria eucalypti
Three new Deuteromycetes from *Eucalyptus* leaf litter 501
Dactylaria lunata
Two new species of *Dactylaria* from Taiwan 1000
Dactylaria pyriformis
Two new species of *Dactylaria* from Taiwan 1000
Datronia mollis
Ontogenetic stages from coenocyte to basidiome and their relation to phenoloxidase activity and colonization processes in *Phanerochaete magnoliae* 1414
Development
Development of microconidia in *Fusarium* section Sporotrichiella 284
Cultural studies on the genus *Termitomyces* in South Africa. II. Macro- and micromorphology of comb sporodochia 444
Homokaryon-dikaryon phenotypic switching in an arginine requiring mutant of *Coprinus congregatus* 776
Development of asexual organisms from meiospores of *Allomyces macrogynus* 1127
The effect of light intensity and glucose concentration on the development of *Aspergillus giganteus* mutant *alba* 1197
Dictyochaeta
Three new species of *Dictyochaeta* with non-setose conidiophores and non-septate conidia from Malaysia 104
Key to *Dictyochaeta* and *Codinaea* species 1224
Dictyochaeta aliformis
Three new species of *Dictyochaeta* with non-setose conidiophores and non-septate conidia from Malaysia 104
Dictyochaeta daphnioides
Three new species of *Dictyochaeta* with non-setose conidiophores and non-septate conidia from Malaysia 104
Dictyochaeta guadalcanalensis
Dictyochaeta guadalcanalensis (Matsh.) comb. nov. and several new records of the genus in Malaysia 1220
Dictyochaeta gyrosetula
Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211
Dictyochaeta macrospora
Dictyochaeta macrospora sp. nov.: a litter-inhabiting hyphomycete from Malaysia 248
Dictyochaeta pluriguttulata
Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211
Dictyochaeta sampahia
Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211
Dictyochaeta stipitocolla
Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211
Dictyochaeta tumidoseta
Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211
Dictyochaeta tumidospora
Three new species of *Dictyochaeta* with non-setose conidiophores and non-septate conidia from Malaysia 104
Dictyochaeta variabilis
Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211
Dictyochaeta vittata
Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211
Dictyosporium digitatum
Dictyosporium digitatum, a new hyphomycete from Taiwan 1145
Didymobotryopsis parasitica
Taxonomic status of *Didymobotryopsis* (Hyphomycetes) and description of a new *Hirsutella* species 887
Differentiation
Differentiation in agaric basidiomata and phylogenetic problems 1249
Dikaryons
Dikaryon development in *Flammulina velutipes* 636
Dimethomorph
Effects of dimethomorph on the morphology and ultrastructure of *Phytophthora* 333
Dimorphism
Effect of pH and the initial concentration of yeast extract on regulation of dimorphism and exopolysaccharide formation of *Aureobasidium pullulans* in batch culture 220
Diplolaeviopsis
Diplolaeviopsis ranula, a new genus and species of lichenicolous coelomycetes growing on the *Lecanora strobilina* group in Spain 759
Diplolaeviopsis ranula
Diplolaeviopsis ranula, a new genus and species of lichenicolous coelomycetes growing on the *Lecanora strobilina* group in Spain 759

Diplonaevia paulula
Diplonaevia paulula comb. nov. a discomycete on *Juncus maritimus* 634
Discomycetes
Diplonaevia paulula comb. nov. a discomycete on *Juncus maritimus* 634
Dispersal
The effect of mist particles on the dispersal of *Drechslera teres* conidia 889
Dissoconium dekkeri
A new species of *Dissoconium* 679
DNA
Taxonomic structure of *Phytophthora cryptogea* and *P. drechsleri* based on isozyme and mitochondrial DNA analysis 31
Allomyces zoospores synchronously released in high yields for deoxyribonucleic acid analysis 492
DNA content
Variation in DNA content of nuclei of *Phytophthora infestans* as measured by a microfluorimetric method using the fluorochrome DAPI 602
Inheritance of DNA contents in sexual progenies of *Phytophthora infestans* 1094
DNAase
Effects of nutritional status of *Aspergillus nidulans* on its nuclease activity 792
Drechmeria coniospora
Colonization and digestion of nematodes by the endoparasitic nematophagous fungus *Drechmeria coniospora* 873
Drechslera gigantea
Production of petasol by *Drechslera gigantea* in liquid culture 347
Drechslera teres
The effect of mist particles on the dispersal of *Drechslera teres* conidia 889
Echinocandin
An echinocandin from an endophytic *Cryptosporiopsis* sp. and *Pezicula* sp. in *Pinus sylvestris* and *Fagus sylvatica* 1439
Ecology
A dynamic model of fungal spores in a freshwater stream 184
The effects of the fungicide propiconazole (Tilt®) on the ground nut shell mycobiota 571
Ectomycorrhizas
Effect of copper on tyrosinase activity and polyamine content of some ectomycorrhizal fungi 268
Extracellular concanavalin A-binding sites during early interactions between *Pinus banksiana* and two closely related genotypes of the ectomycorrhizal basidiomycete *Laccaria bicolor* 357
Ectomycorrhizal synthesis with *Tylospora fibrillosa*, a member of the Corticiaceae 381
Intra- and interspecific relations within *Laccaria bicolor sensu lato* 592
Nuclear behaviour in the basidiomes and ectomycorrhizas of *Hebeloma westraliense* sp. nov. 683
Laccaria fraterna, a common ectomycorrizal fungus with mono- and bisporic basidia and multinucleate spores: comparison with the quadristerigmate, binucleate spored *L. laccata* and the hypogeous relative *Hydnangium carneum* 689
Characterization of naturally grown and *in vitro* synthesized ectomycorrhizas of *Hebeloma crustuliniforme* and *Picea abies* 1407
Eicosapentaenoic acid
Eicosapentaenoic acid (EPA) formation: comparative studies with *Mortierella* strains and production by *Mortierella elongata* 1294
Elaphomyces guangdongensis
Revision of Chinese species of *Elaphomyces* (Ascomycotina, Elaphomycetales) 973
Elaphomyces muricatus* forma *heterodermus
Revision of Chinese species of *Elaphomyces* (Ascomycotina, Elaphomycetales) 973
Elaphomyces porcatosporus
Revision of Chinese species of *Elaphomyces* (Ascomycotina, Elaphomycetales) 973
Elaphomyces reticulosporus
Revision of Chinese species of *Elaphomyces* (Ascomycotina, Elaphomycetales) 973
Endophytes
Aquatic hyphomycetes and other fungi in living aquatic and terrestrial roots of *Alnus glutinosa* 543
The *Rhizoctonia* endophytes of *Rhizanthella* (Orchidaceae) 656
Variation within isolates of *Acremonium* endophytes from perennial ryegrasses 918
Variation among isolates of *Acremonium* endophytes (*A. coenophialum* and possibly *A. typhinum*) from tall fescue (*Festuca arundinacea*) 1123
Entomogenous fungi
Hirsutella nodulosa isolated from a rhodacarid mite on driftwood collected from an inland marine lake in Bermuda 372
Taxonomic status of *Didymobotryopsis* (Hyphomycetes) and description of a new *Hirsutella* species 887
Tolerance of copper by entomogenous fungi and the use of copper-amended media for isolation of entomogenous fungi from soil 1140
Myrmecomyces annellisae gen. nov., sp. nov. (Deuteromycotina: Hyphomycetes), an endoparasitic fungus of fire ants, *Solenopsis* spp. (Hymenoptera: Formicidae) 1395
Enzymes
Cytogenetic and biochemical aspects of the cellulolytic fungus *Humicola* sp. 169
Use of API-Zym strips and 4-nitrophenyl substrates to detect and quantify hydrolytic enzymes in media and grain colonized with *Aspergillus*, *Eurotium* and *Penicillium* species 834
Epichloe typhina
Variation within isolates of *Acremonium* endophytes from perennial ryegrasses 918
Epicoccum nigrum
Relationship between flavipin production by *Epicoccum nigrum* and antagonism against *Monilinia laxa* 1375
Ergot
Parasitic interactions between *Claviceps purpurea* strains in wheat and an acute necrotic host response 807
Erratum
Use of polyacrylic acid to prevent mycelial aggregation of *Ustilago nuda* in agitated liquid culture 1024
Eucalyptus
The fungi forming mycorrhizas on eucalypt seedlings in regeneration coupes in Tasmania 329
Three new Deuteromycetes from *Eucalyptus* leaf litter 501
Mycosphaerella nubilosa a synonym of *M. molleriana* 628
The *Rhizoctonia* endophytes of *Rhizanthella* (Orchidaceae) 656
Nuclear behaviour in the basidiomes and ectomycorrhizas of *Hebeloma westraliense* sp. nov. 683
Laccaria fraterna, a common ectomycorrizal fungus with mono- and bisporic basidia and multinucleate spores: comparison with the quadristerigmate, binucleate spored *L. laccata* and the hypogeous relative *Hydnangium carneum* 689
Eurotium
Use of API-Zym strips and 4-nitrophenyl substrates to detect and quantify hydrolytic enzymes in media and grain colonized with *Aspergillus*, *Eurotium* and *Penicillium* species 834
Exopolysaccharide
Effect of pH and the initial concentration of yeast extract on regulation of dimorphism and exopolysaccharide formation of *Aureobasidium pullulans* in batch culture 220
Fagus sylvatica
An echinocandin from an endophytic *Cryptosporiopsis* sp. and *Pezicula* sp. in *Pinus sylvestris* and *Fagus sylvatica* 1439
Fatty acids
Fatty acid composition and taxonomic status of *Ganoderma australe* from Southern Chile. 782
Festuca arundinacea
Variation among isolates of *Acremonium* endophytes (*A. coenophialum* and possibly *A. typhinum*) from tall fescue (*Festuca arundinacea*) 1123
Filobasidium uniguttulatum
Screening of yeasts isolated from decayed wood for lignocellulose-degrading enzyme activities 1299
Flammulina velutipes
Dikaryon development in *Flammulina velutipes* 636
Flavipin
Relationship between flavipin production by *Epicoccum nigrum* and antagonism against *Monilinia laxa* 1375
Fruiting
Involvement of endogenous glycogen in fruiting of *Volvariella volvacea* and *Pleurotus sajor-caju* 632
Fungal community
Initial fungal community development on decomposing timothy (*Phleum pratense*) litter from a reclaimed coal-mine spoil in Alberta, Canada 14
Fungal evolution
Benefactors' Lecture: The impact of molecular biology on mycology 9
Fungicide
Distribution of a fungicide at the host–pathogen interface studied by X-ray microanalysis 239
Fungicide resistance
Genetic basis of resistance to benzimidazole and dicarboximide fungicides in *Botryotinia fuckeliana* (*Botrytis cinerea*) 943

Fungicides
Developmental stage response to fungicides of *Plasmopara halstedii* (sunflower downy mildew) 199
The effects of the fungicide propiconazole (Tilt®) on the ground nut shell mycobiota 571
Germ tube growth and the microtubule cytoskeleton in *Phytophthora infestans*: effects of antagonists of hyphal growth, microtubule inhibitors and ionophores 611
Fusarium chlamydosporum
Development of microconidia in *Fusarium* section Sporotrichiella 284
Fusarium culmorum
Uptake of the polyamine biosynthesis inhibitor alpha-difluoromethylornithine by the plant pathogen fungus, *Fusarium culmorum* 621
Polyamine uptake by the plant pathogenic fungus, *Fusarium culmorum* 715
Fusarium equiseti
Phomopsis phoenicola and *Fusarium equiseti*, new pathogens on date palm in Iraq 509
Fusarium graminearum
Low calcium concentrations induce increased branching in *Fusarium graminearum* 561
Phosphatidylinositol 4,5-bisphosphate (PIP_2) is present in *Fusarium graminearum* 1082
Appearance of morphological (colonial) mutants in glucose-limited, continuous flow cultures of *Fusarium graminearum* A3/5 1284
Fusarium moniliforme
Occurrence of airborne spores of fungi causing grain mould over a sorghum crop 1315
Fusarium oxysporum
Oxidation of thiosulphate by *Fusarium oxysporum* grown under oligotrophic conditions 1169
The quantity and fate of carbon assimilated from $^{14}CO_3$ by *Fusarium oxysporum* grown under oligotrophic and near oligotrophic conditions 1345
Fusarium oxysporum* f. sp. *elaeidis
Extracellular hydrolytic enzyme production by pathogenic strains of *Fusarium oxysporum* f. sp. *elaeidis* 116
Fusarium poae
Development of microconidia in *Fusarium* section Sporotrichiella 284
Fusarium solani* f. sp. *pisi
Interactions between *Pythium oligandrum* and the fungal footrot pathogen of peas 861
Fusarium sporotrichioides
Development of microconidia in *Fusarium* section Sporotrichiella 284
Ganoderma applanatum
Fatty acid composition and taxonomic status of *Ganoderma australe* from Southern Chile. 782
Ganoderma australe
Fatty acid composition and taxonomic status of *Ganoderma australe* from Southern Chile. 782
Genabea
Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986
Genea
Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986
Genea fragilis
Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986
Genea sinensis
Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986
Genea variabilis
Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986
Genetic analysis
Intra- and interspecific relations within *Laccaria bicolor sensu lato* 592
Genetics
Benefactors' Lecture: The impact of molecular biology on mycology 9
Genetic analysis and characterization of *Cochliobolus heterostrophus* colour mutants 49
Genetic variability and population structure in the canker pathogen *Crumenulopsis sororia* 521
Determination of genes and subunit composition of three isozyme activities in *Agaricus bitorquis* 851
Partial intersterility in *Heterobasidion annosum* 1153
Monokaryon pairings of the dry rot fungus *Serpula lacrymans* 1382
Geotrichopsis
Geotrichopsis mycoparasitica gen. et sp. nov. (Hyphomycetes), a new mycoparasite 1350
Geotrichopsis mycoparasitica
Geotrichopsis mycoparasitica gen. et sp. nov. (Hyphomycetes), a new mycoparasite 1350
Geotrichum candidum
The influence of volatile metabolites from *Geotrichum candidum* on other fungi 891
Gibberella zeae
Effects of acetic acid, propionic acid and urea on inoculum production by *Gibberella zeae* in maize and wheat residues 409
Gliocladium virens
Production of gliotoxin by *Gliocladium virens* as a function of source and concentration of carbon and nitrogen 1242
Gliotoxin
Production of gliotoxin by *Gliocladium virens* as a function of source and concentration of carbon and nitrogen 1242
Glomales
Lectotypification of *Scutellospora auriglobosa* (Glomales) 398
Glomus
The entrapment of *Glomus* sp. in alginate beads and their use as root inoculum 1194
Glomus etunicatum
Use of hydrogel as a sticking agent and carrier for vesicular-arbuscular mycorrhizal fungi 427
Glomus mosseae
Population variation in the mycorrhizal fungus *Glomus mosseae*: breadth of environmental tolerance 300
Effect of photon irradiance on the development and activity of VA mycorrhizal infection in *Allium porrum* 741
Glucanase
Production and regulation of β-glucanases in *Acremonium* and *Cephalosporium* 352
Glycogen
Involvement of endogenous glycogen in fruiting of *Volvariella volvacea* and *Pleurotus sajor-caju* 632
Graphium
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Analysis of conidium ontogeny in anamorphs of *Ophiostoma*: *Pesotum* and *Phialographium* are synonyms of *Graphium* 1328
Graphium piceae
Analysis of conidium ontogeny in anamorphs of *Ophiostoma*: *Pesotum* and *Phialographium* are synonyms of *Graphium* 1328
Graphium ulmi
Analysis of conidium ontogeny in anamorphs of *Ophiostoma*: *Pesotum* and *Phialographium* are synonyms of *Graphium* 1328
Grassland flora
Uptake and accumulation of ^{137}Cs by upland grassland soil fungi: a potential pool of Cs immobilization 1052
Growth
The role of droplets in helping to maintain a constant growth rate of aerial hyphae 883
Gyromitra
Ultrastructural observations on Helvellaceae (Pezizales, Ascomycetes). V. Septal structures in *Gyromitra* 421
Hallucinogenic fungi
A new species of *Psilocybe* of section *Zapotecorum* from New Zealand 507
Haustoria
Ultrastructure of the haustoria of *Meliola sandwicensis* 1208
Hebeloma crustuliniforme
Characterization of naturally grown and *in vitro* synthesized ectomycorrhizas of *Hebeloma crustuliniforme* and *Picea abies* 1407
Hebeloma westraliense
Nuclear behaviour in the basidiomes and ectomycorrhizas of *Hebeloma westraliense* sp. nov. 683
Heliscus lugdunensis
Aquatic hyphomycete communities in the river Teign. IV. Twig colonization 413
Heterobasidiomycetes
A view of the active basidium in Heterobasidiomycetes 618
Heterobasidion annosum
Pectic isozyme profiles of intersterility groups in *Heterobasidion annosum* 531

Partial intersterility in *Heterobasidion annosum* 1153
Patterns of nuclear migration and heterokaryosis in pairings between sibling homokaryons of *Heterobasidion annosum* 1275
Heteroconium asiaticum
New species of *Heteroconium*, *Pseudocercospora* and *Stenella* from India 1070
Heterokaryosis
Patterns of nuclear migration and heterokaryosis in pairings between sibling homokaryons of *Heterobasidion annosum* 1275
Heterosporium magnoliae
Parastenella, a new generic name for *Heterosporium magnoliae* 123
Hevea brasiliensis
Morphological and physiological characters of two isolates of *Colletotrichum gloeosporioides* from rubber (*Hevea brasiliensis*) 1085
Hirsutella dendritica
Taxonomic status of *Didymobotryopsis* (Hyphomycetes) and description of a new *Hirsutella* species 887
Hirsutella nodulosa
Hirsutella nodulosa isolated from a rhodacarid mite on driftwood collected from an inland marine lake in Bermuda 372
Hirsutella parasitica
Taxonomic status of *Didymobotryopsis* (Hyphomycetes) and description of a new *Hirsutella* species 887
Hormonal regulation
Hormonal regulation of sexual reproduction and mating type change in heterothallic *Pythium splendens* 452
Host–pathogen interface
Distribution of a fungicide at the host–pathogen interface studied by X-ray microanalysis 239
Humicola
Cytogenetic and biochemical aspects of the cellulolytic fungus *Humicola* sp. 169
Hydnangium carneum
Laccaria fraterna, a common ectomycorrizal fungus with mono- and bisporic basidia and multinucleate spores: comparison with the quadristerigmate, binucleate spored *L. laccata* and the hypogeous relative *Hydnangium carneum* 689
Hydrogamasus
Hirsutella nodulosa isolated from a rhodacarid mite on driftwood collected from an inland marine lake in Bermuda 372
Hyphochytriales
Ultrastructural detection of polysaccharides in the cell walls of two members of the Hyphochytriales 1057
Identification
Problems in identifying pathogenicity types of *Pseudocercosporella herpotrichoides* by colony morphology arising from the source and concentration of the nutrient agar 253
Immunocytochemistry
Immunocytochemical localisation of a specific antigen in cell walls of *Penicillium islandicum* 1369
Imperata
Myriellina imperatae sp. nov. on *Imperata* from Papua New Guinea and Australia 1021
Incompatibility
Monokaryon pairings of the dry rot fungus *Serpula lacrymans* 1382
Infection
Infection of pea epicotyls by *Mycosphaerella pinodes* 817
Infectivity
Growth and infectivity of *Botryodiplodia theobromae* causing stem-end rot of mango 405
Inhibitors
The influence of volatile metabolites from *Geotrichum candidum* on other fungi 891
Lithium chloride as a selective inhibitor of *Trichoderma* species on soil isolation plates 1364
Inoculation
Use of hydrogel as a sticking agent and carrier for vesicular-arbuscular mycorrhizal fungi 427
Inoculum density
Calcium, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 64
Boron, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 74
Inoculum production
Effects of acetic acid, propionic acid and urea on inoculum production by *Gibberella zeae* in maize and wheat residues 409
The entrapment of *Glomus* sp. in alginate beads and their use as root inoculum 1194
Inositol
Evidence for an inositol lipid signal pathway in the yeast–mycelium transition of *Ophiostoma ulmi*, the Dutch elm disease fungus 484
Insect association
Insect attraction by *Tuber*: a chemical explanation 1359
Instructions to authors
Preparation of manuscripts for *Mycological Research*: Instructions to authors 1
Interactions
Light and electron microscopical studies of interactions between *Allium* spp. and *Peronospora destructor* 278
Parasitic interactions between *Claviceps purpurea* strains in wheat and an acute necrotic host response 807
Interactions between *Coniothyrium minitans* and sclerotia 295
Effect of water potential on microbial antagonism to *Pyrenophora tritici-repentis* in wheat residue 308
Extracellular concanavalin A-binding sites during early interactions between *Pinus banksiana* and two closely related genotypes of the ectomycorrhizal basidiomycete *Laccaria bicolor* 357
Intersterility groups
Partial intersterility in *Heterobasidion annosum* 1153
Invertase activity
Location of invertase in *Aspergillus nidulans*: release during hyphal wall digestion and secretion by protoplasts 1270
Occurrence and properties of acid invertase in cultures of *Botrytis cinerea* 1321
Ionomidotis chilensis
On the synonymy of *Ameghiniella australis* and *Ionomidotis chilensis* 1131
Ips typographus
Oxygen deficiency and spruce resin inhibition of growth of blue stain fungi associated with *Ips typographus* 1387
Iron metabolism
Influence of iron depletion and antifungal antibiotics of cell surface hydrophobicity of *Candida albicans* 1312
Isoenzyme analysis
Isozyme comparison within and among worldwide sources of three morphologically distinct species of *Phytophthora* 19
Taxonomic structure of *Phytophthora cryptogea* and *P. drechsleri* based on isozyme and mitochondrial DNA analysis 31
A revised systematics of twelve papillate *Phytophthora* species based on isozyme analysis 1025
Isoenzymes
Comparisons of soluble proteins and isozymes for seven *Pythium* species and applications of the biochemical data to *Pythium* systematics 548
Determination of genes and subunit composition of three isozyme activities in *Agaricus bitorquis* 851
Isolation
A selective medium for the isolation and enumeration of *Mucor* species 373
Tolerance of copper by entomogenous fungi and the use of copper-amended media for isolation of entomogenous fungi from soil 1140
Itersoniella
Systematics of *Itersoniella*: a comparative study 135
Juncus maritimus
Diplonaevia paulula comb. nov. a discomycete on *Juncus maritimus* 634
Juniperus chinensis
A new species of *Dissoconium* 679
Junlon
The effect of Junlon PW110 and Tween 80 on the production of cellulolytic enzymes by *Coprinus cinereus* 1077
Kellermania intermedia
Three new Deuteromycetes from *Eucalyptus* leaf litter 501
Kelleromyxa
Kelleromyxa, a new generic name for *Licea fimicola* (Myxomycetes) 1201
Kelleromyxa fimicola
Kelleromyxa, a new generic name for *Licea fimicola* (Myxomycetes) 1201
Keys
Intra- and interspecific relations within *Laccaria bicolor sensu lato* 592
The genus *Micropsalliota* (Agaricaceae) in Kerala State, India 341
Taphrophila (Tubeufiaceae, Dothideales) and two species of *Tubeufia* with dark setae 811
Species of *Periconiella* and *Stenella* on Proteaceae in eastern Australia 924
Revision of Chinese species of *Elaphomyces* (Ascomycotina, Elaphomycetales) 973
Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986

Key to *Dictyochaeta* and *Codinaea* species 1224
Laccaria
Mitochondrial DNA polymorphisms in *Laccaria bicolor, L. laccata, L. proxima* and *L. amethystina* 206
Laccaria bicolor
Extracellular concanavalin A-binding sites during early interactions between *Pinus banksiana* and two closely related genotypes of the ectomycorrhizal basidiomycete *Laccaria bicolor* 357
Intra- and interspecific relations within *Laccaria bicolor sensu lato* 592
Laccaria fraterna
Laccaria fraterna, a common ectomycorrizal fungus with mono- and bisporic basidia and multinucleate spores: comparison with the quadristerigmate, binucleate spored *L. laccata* and the hypogeous relative *Hydnangium carneum* 689
Laccaria laccata
Laccaria fraterna, a common ectomycorrizal fungus with mono- and bisporic basidia and multinucleate spores: comparison with the quadristerigmate, binucleate spored *L. laccata* and the hypogeous relative *Hydnangium carneum* 689
Laccaria nobilis
Intra- and interspecific relations within *Laccaria bicolor sensu lato* 592
Laccaria trichodermophora
Intra- and interspecific relations within *Laccaria bicolor sensu lato* 592
Layout of papers
Layout and style of papers submitted to *Mycological Research* 7
Leaf cutting ants
Leucoagaricus weberi sp. nov. from a live nest of leaf-cutting ants 1308
Leaf litter
Effects of litter treatments on the sporophore production of beech forest macrofungi 1137
Lecanora strobilina
Diplolaeviopsis ranula, a new genus and species of lichenicolous coelomycetes growing on the *Lecanora strobilina* group in Spain 759
Lectotype
Lectotypification of *Scutellospora auriglobosa* (Glomales) 398
Leptographium lundbergii
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Leptographium procerum
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Leptographium serpens
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Leptographium truncatum
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Leptographium wingfieldii
Leptographium and *Graphium* species associated with pine-infesting bark beetles in England 1257
Leptomitus lacteus
Occurrence of the sewage fungus *Leptomitus lacteus*, a necrotroph on perch (*Perca fluviatilis*), in Windermere 755
Leucoagaricus weberi
Leucoagaricus weberi sp. nov. from a live nest of leaf-cutting ants 1308
Leucothecium coprophilum
Two interesting coprophilous fungi from Spain 243
Licea fimicola
Kelleromyxa, a new generic name for *Licea fimicola* (Myxomycetes) 1201
Lichenicolous fungi
Diplolaeviopsis ranula, a new genus and species of lichenicolous coelomycetes growing on the *Lecanora strobilina* group in Spain 759
Lichens
The anamorph of *Tylophoron moderatum* 290
Cell wall structure and composition of cultured mycobionts from the lichens *Cladonia macrophylla, Cladonia caespiticia* and *Physcia stellaris* (Lecanorales, Ascomycetes) 905
Light intensity
The effect of light intensity and glucose concentration on the development of *Aspergillus giganteus* mutant *alba* 1197
Lilian E. Hawker
Obituary. Lilian E. Hawker, 19 May 1908–5 February 1991 1343
Lipids
Effect of monensin on the lipid composition of *Achlya bisexualis* 480
Lithium chloride
Lithium chloride as a selective inhibitor of *Trichoderma* species on soil isolation plates 1364
Litter fungi
Initial fungal community development on decomposing timothy (*Phleum pratense*) litter from a reclaimed coal-mine spoil in Alberta, Canada 14
Three new Deuteromycetes from *Eucalyptus* leaf litter 501
Lolium perenne
Variation within isolates of *Acremonium* endophytes from perennial ryegrasses 918
Lycoperdon darjeelingense
A new species of *Lycoperdon* from India 1144
Mangifera indica
Growth and infectivity of *Botryodiplodia theobromae* causing stem-end rot of mango 405
Marasmius crinisequi
Rhizomorph structure and development in *Marasmius crinisequi* 1249
Marine red algae
Antifugal activity in crude extracts of marine red algae 1433
Massarina tetraploa
Massarina tetraploa sp. nov., the teleomorph of *Tetraploa aristata* 126
Mating reactions
Identity of *Armillaria* isolates used in studies of rhizomorph behaviour and pathogenicity 1437
Meat spoilage
Yeasts associated with lamb 57
Medicago sativa
Synthesis and biological activity of stemtoxin by *Stemphylium botryosum* and related fungi 566
Meiosporangia
Maturation of meiosporangia in *Allomyces macrogynus* 495
Development of asexual organisms from meiospores of *Allomyces macrogynus* 1127
Melanin
Genetic analysis and characterization of *Cochliobolus heterostrophus* colour mutants 49
Meliola sandwicensis
Ultrastructure of the haustoria of *Meliola sandwicensis* 1208
Michenera artocreas
Michenera artocreas in elm wood infested with *Scolytis multistriatus* in Australia 761
Microanalysis
Distribution of a fungicide at the host–pathogen interface studied by X-ray microanalysis 239
Microconidia
Development of microconidia in *Fusarium* section Sporotrichiella 284
Micropsalliota
The genus *Micropsalliota* (Agaricaceae) in Kerala State, India 341
Micropsalliota alboserica
The genus *Micropsalliota* (Agaricaceae) in Kerala State, India 341
Micropsalliota pudica
The genus *Micropsalliota* (Agaricaceae) in Kerala State, India 341
Micropsalliota pulverulenta
The genus *Micropsalliota* (Agaricaceae) in Kerala State, India 341
Microsporum canis
Antifugal activity in crude extracts of marine red algae 1433
Minimidochium indicum
Three new Deuteromycetes from *Eucalyptus* leaf litter 501
Mitochondrial DNA
Taxonomic structure of *Phytophthora cryptogea* and *P. drechsleri* based on isozyme and mitochondrial DNA analysis 31
Mitochondrial DNA polymorphisms in *Laccaria bicolor, L. laccata, L. proxima* and *L. amethystina* 206
Mitochondrial DNA restriction fragment length polymorphisms of aggressive and non-aggressive isolates of *Ophiostoma ulmi* 537
Mollisia paulula
Diplonaevia paulula comb. nov. a discomycete on *Juncus maritimus* 634
Monensin
Effect of monensin on the lipid composition of *Achlya bisexualis* 480
Monilinia fructicola
Population structure of *Monilinia fructicola* in *Prunus persica* var. *nucipersica* tree canopies 893
Monilinia laxa
Relationship between flavipin production by *Epicoccum nigrum* and antagonism against *Monilinia laxa* 1375
Monosporonella
Monosporonella, a new genus in the Tulasnellaceae, Basidiomycetes 377
Monosporonella termitophila
Monosporonella, a new genus in the Tulasnellaceae, Basidiomycetes 377

Monstera deliciosa
Rust of *Monstera deliciosa* in Australia 665
Morchella esculenta
Mycosporins and related compounds in field and cultured mycelial structures of *Morchella esculenta* 752
Morphogenesis
Morphogenesis and ultrastructure of the conidiomata of *Ascochyta cypericola* 785
Developmental regulation of proteins during fruit-body morphogenesis in *Sordaria brevicollis* 958
Morphology
Antagonism by sugars of the effects of validamycin A on growth and morphology of *Rhizoctonia cerealis* 129
Systematics of *Itersoniella*: a comparative study 135
Evaluation of the forma specialis concept in *Aphanomyces euteiches* 147
Cytogenetic and biochemical aspects of the cellulolytic fungus *Humicola* sp. 169
Effects of dimethomorph on the morphology and ultrastructure of *Phytophthora* 333
Morphology and ultrastructure of W and R pathotypes of *Pseudocercosporella herpotrichoides* on wheat seedlings 385
A revised systematics of twelve papillate *Phytophthora* species based on isozyme analysis 1025
Morphological and physiological characters of two isolates of *Colletotrichum gloeosporioides* from rubber (*Hevea brasiliensis*) 1085
Appearance of morphological (colonial) mutants in glucose-limited, continuous flow cultures of *Fusarium graminearum* A3/5 1284
Mortierella alpina
Eicosapentaenoic acid (EPA) formation: comparative studies with *Mortierella* strains and production by *Mortierella elongata* 1294
Mortierella elongata
Eicosapentaenoic acid (EPA) formation: comparative studies with *Mortierella* strains and production by *Mortierella elongata* 1294
Muciturbo reticulatus
The fungi forming mycorrhizas on eucalypt seedlings in regeneration coupes in Tasmania 329
Mucor
A selective medium for the isolation and enumeration of *Mucor* species 373
Comparison of chemical components of healthy and spoiled areca nut 747
Mucorales
Degradation of chitosan in the autolysis of Mucorales 217
Mutants
Genetic analysis and characterization of *Cochliobolus heterostrophus* colour mutants 49
Mycena capillaris
Effects of litter treatments on the sporophore production of beech forest macrofungi 1137
Mycena cystidiosa
Structure of the capitate aerial organs of *Mycena cystidiosa* 1065
Mycocentrospora acerina
Aquatic hyphomycete communities in the river Teign. IV. Twig colonization 413
Mycogone perniciosa
Nutrient depletion and sporulation in the wet bubble pathogen *Mycogone perniciosa* 364
Mycoparasites
Interactions between *Coniothyrium minitans* and sclerotia 295
Video microscopical comparison of mycoparasitism by *Pythium oligandrum*, *P. nunn* and an unnamed *Pythium* species 469
Geotrichopsis mycoparasitica gen. et sp. nov. (Hyphomycetes), a new mycoparasite 1350
Mycorrhizal fungi
Wilcoxina mikolae newly identified as a mycorrhizal fungus on pines in Africa 250
Population variation in the mycorrhizal fungus *Glomus mosseae*: breadth of environmental tolerance 300
The fungi forming mycorrhizas on eucalypt seedlings in regeneration coupes in Tasmania 329
Taxonomy and population structure of E-strain mycorrhizal fungi inferred from ribosomal and mitochondrial DNA polymorphisms 866
Effects of litter treatments on the sporophore production of beech forest macrofungi 1137
Mycosphaerella capsellae
The biology of *Mycosphaerella capsellae* sp. nov., the teleomorph of *Pseudocercosporella capsellae*, cause of white leaf spot of oil seed rape 1334
Mycosphaerella marasasii
Mycosphaerella marasasii sp. nov. and its *Pseudocercospora* anamorph on leaves of *Syzygium cordatum* 1108
Mycosphaerella molleriana
Mycosphaerella nubilosa a synonym of *M. molleriana* 628
Mycosphaerella nubilosa
Mycosphaerella nubilosa a synonym of *M. molleriana* 628
Mycosphaerella pinodes
Infection of pea epicotyls by *Mycosphaerella pinodes* 817
Interactions between *Pythium oligandrum* and the fungal footrot pathogen of peas 861
Mycosporins
Mycosporins and related compounds in field and cultured mycelial structures of *Morchella esculenta* 752
Mycotoxins
Nephrotoxic fungi in a Yugoslavian community in which the Balkan Nephropathy is hyperendemic 660
Myriellina imperatae
Myriellina imperatae sp. nov. on *Imperata* from Papua New Guinea and Australia 1021
Myrmecomyces
Myrmecomyces annellisae gen. nov., sp. nov. (Deuteromycotina: Hyphomycetes), an endoparasitic fungus of fire ants, *Solenopsis* spp. (Hymenoptera: Formicidae) 1395
Myrmecomyces annellisae
Myrmecomyces annellisae gen. nov., sp. nov. (Deuteromycotina: Hyphomycetes), an endoparasitic fungus of fire ants, *Solenopsis* spp. (Hymenoptera: Formicidae) 1395
Myxomycetes
The myxomycete biota of the Hawaiian Islands 257
Amylase as an extracellular enzyme from plasmodia of myxomycetes 885
Kelleromyxa, a new generic name for *Licea fimicola* (Myxomycetes) 1201
Necrotroph
Occurrence of the sewage fungus *Leptomitus lacteus*, a necrotroph on perch (*Perca fluviatilis*), in Windermere 755
Nematode fungi
Colonization and digestion of nematodes by the endoparasitic nematophagous fungus *Drechmeria coniospora* 873
Neochaetospora
New names for *Chaetospora* and its type species 768
Neochaetospora quezelii
New names for *Chaetospora* and its type species 768
Neolysurus
Neolysurus: a new genus in the Clathraceae 1230
Neolysurus arcipulvinus
Neolysurus: a new genus in the Clathraceae 1230
Nephotettix virescens
Influence of cultural conditions on the virulence of conidia and blastospores of *Beauveria bassiana* to the green leaf hopper, *Nephotettix virescens* 829
Neurospora crassa
Analysis of the polypeptide composition of the cell walls of *Neurospora crassa*. Similarities with the proteinaceous material secreted by the slime variant 315
Effect of osmotic stress on yield and polyol content of dicarboximide-sensitive and -resistant strains of *Neurospora crassa* 457
New combination
Parastenella, a new generic name for *Heterosporium magnoliae* 123
New combinations
A new species of *Ceratosporella* and *Triposporium lambdaseptatum* (Matsush.) comb nov. from Malaysia 158
Some new species and a new combination in *Pseudocercospora* from India 401
Diplonaevia paulula comb. nov. a discomycete on *Juncus maritimus* 634
A new combination for *Cercospora pachirae* 767
New names for *Chaetospora* and its type species 768
Taphrophila (Tubeufiaceae, Dothideales) and two species of *Tubeufia* with dark setae 811
Taxonomic status of *Didymobotryopsis* (Hyphomycetes) and description of a new *Hirsutella* species 887
Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986
Species of *Phaeoisariopsis* and *Stenella* (Hyphomycetes) on *Wikstroemia* (Thymelaeaceae) 1005
Kelleromyxa, a new generic name for *Licea fimicola* (Myxomycetes) 1201
Dictyochaeta guadalcanalensis (Matsh.) comb. nov. and several new records of the genus in Malaysia 1220

Analysis of conidium ontogeny in anamorphs of *Ophiostoma*: *Pesotum* and *Phialographium* are synonyms of *Graphium* 1328

New form species

Rust of *Monstera deliciosa* in Australia 665

New forms

Revision of Chinese species of *Elaphomyces* (Ascomycotina, Elaphomycetales) 973

New genera

Monosporonella, a new genus in the Tulasnellaceae, Basidiomycetes 377

Catenomycopsis rosea gen. et sp. nov. (Hyphomycetes), anamorph of *Caenothecopsis haematopus* 556

Diplolaeviopsis ramula, a new genus and species of lichenicolous coelomycetes growing on the *Lecanora strobilina* group in Spain 759

Tandonea, a new Coelomycete genus causing leaf spotting and blight in *Eubucklandia populnea* from India 1074

Kelleromyxa, a new generic name for *Licea fimicola* (Myxomycetes) 1201

Neolysurus: a new genus in the Clathraceae 1230

Compsosporiella drightonii gen. et sp. nov. (Coelomycetes) from Sierra Leone 1289

Geotrichopsis mycoparasitica gen. et sp. nov. (Hyphomycetes), a new mycoparasite 1350

Myrmecomyces annellisae gen. nov., sp. nov. (Deuteromycotina: Hyphomycetes), an endoparasitic fungus of fire ants, *Solenopsis* spp. (Hymenoptera: Formicidae) 1395

Parastenella, a new generic name for *Heterosporium magnoliae* 123

New names

New names for *Chaetospora* and its type species 768

New sections

Leucoagaricus weberi sp. nov. from a live nest of leaf-cutting ants 1308

New species

South African fungi: the genus *Amanita* 80

Three new species of *Dictyochaeta* with non-setose conidiophores and non-septate conidia from Malaysia 104

Massarina tetraploa sp. nov., the teleomorph of *Tetraploa aristata* 126

A new species of *Ceratosporella* and *Triposporium lambdaseptatum* (Matsush.) comb nov. from Malaysia 158

Two new species of *Spadicoides* from Malaysia 163

Two interesting coprophilous fungi from Spain 243

Dictyochaeta macrospora sp. nov.: a litter-inhabiting hyphomycete from Malaysia 248

The genus *Micropsalliota* (Agaricaceae) in Kerala State, India 341

A new species of *Bathyascus* from Indian mangroves 370

Monosporonella, a new genus in the Tulasnellaceae, Basidiomycetes 377

Puccinia ursiniae sp. nov. on *Ursinia anthemoides* 379

Some new species and a new combination in *Pseudocercospora* from India 401

Three new Deuteromycetes from *Eucalyptus* leaf litter 501

A new species of *Psilocybe* of section *Zapotecorum* from New Zealand 507

Coniochaeta cypraeaspora sp. nov. with a *Paecilomyces* conidial state 510

Catenomycopsis rosea gen. et sp. nov. (Hyphomycetes), anamorph of *Caenothecopsis haematopus* 556

Polytretophora dendroidea sp. nov. and *P. calcarata* (Hyphomycetes) from Malaysia 623

The *Rhizoctonia* endophytes of *Rhizanthella* (Orchidaceae) 656

A new species of *Dissoconium* 679

Nuclear behaviour in the basidiomes and ectomycorrhizas of *Hebeloma westraliense* sp. nov. 683

Revision of Australian Asterinaceae: *Asterina* species on Winteraceae and Eupomatiaceae 731

Diplolaeviopsis ramula, a new genus and species of lichenicolous coelomycetes growing on the *Lecanora strobilina* group in Spain 759

Phellinus ralunensis (Aphyllophorales; Hymenochaetaceae), a new white pocket rot species from Chile 769

Taphrophila (Tubeufiaceae, Dothideales) and two species of *Tubeufia* with dark setae 811

Taxonomic status of *Didymobotryopsis* (Hyphomycetes) and description of a new *Hirsutella* species 887

Bagcheea taiwanensis sp. nov. from Taiwan 895

Species of *Periconiella* and *Stenella* on Proteaceae in eastern Australia 924

Revision of Chinese species of *Elaphomyces* (Ascomycotina, Elaphomycetales) 973

Taxonomic status of *Genabea* with two new species of *Genea* (Pezizales) 986

Two new species of *Dactylaria* from Taiwan 1000

Species of *Phaeoisariopsis* and *Stenella* (Hyphomycetes) on *Wikstroemia* (Thymelaeaceae) 1005

Ceratopycnidium baccharidicola sp. nov., from *Baccharis coridifolia* in Argentina 1014

Pseudobeltrania guerensis sp. nov. from Ivory Coast forest litter 1017

Phloeospora aethiopica sp. nov. on *Acanthus* spp. from Ethiopia 1019

Myriellina imperatae sp. nov. on *Imperata* from Papua New Guinea and Australia 1021

Pseudocercosporella tetradeniae sp. nov. on leaves of *Tetradenia* from Zimbabwe 1023

New species of *Heteroconium*, *Pseudocercospora* and *Stenella* from India 1070

Tandonea, a new Coelomycete genus causing leaf spotting and blight in *Eubucklandia populnea* from India 1074

Claviceps africana sp. nov.; the distinctive ergot pathogen of sorghum in Africa 1101

Mycosphaerella marasasii sp. nov. and its *Pseudocercospora* anamorph on leaves of *Syzygium cordatum* 1108

Sterigmatobotrys uniseptata sp. nov. from Taiwan 1142

A new species of *Lycoperdon* from India 1144

Dictyosporium digitatum, a new hyphomycete from Taiwan 1145

Some new Hyphomycetes associated with leaf spots of trees in India 1163

Eight new species of *Dictyochaeta* (Hyphomycetes) from Malaysia 1211

Neolysurus: a new genus in the Clathraceae 1230

Compsosporiella deightonii gen. et sp. nov. (Coelomycetes) from Sierra Leone 1289

Leucoagaricus weberi sp. nov. from a live nest of leaf-cutting ants 1308

The biology of *Mycosphaerella capsellae* sp. nov., the teleomorph of *Pseudocercosporella capsellae*, cause of white leaf spot of oil seed rape 1334

Geotrichopsis mycoparasitica gen. et sp. nov. (Hyphomycetes), a new mycoparasite 1350

Myrmecomyces annellisae gen. nov., sp. nov. (Deuteromycotina: Hyphomycetes), an endoparasitic fungus of fire ants, *Solenopsis* spp. (Hymenoptera: Formicidae) 1395

New subspecies

On the synonymy of *Ameghiniella australis* and *Ionomidotis chilensis* 1131

New varieties

Species of *Phaeoisariopsis* and *Stenella* (Hyphomycetes) on *Wikstroemia* (Thymelaeaceae) 1005

Nilaparvata lugens

Endogenous reserves and survival of blastospores of *Beauveria bassiana* harvested from carbon and nitrogen limited batch cultures 821

Nuclear behaviour

Patterns of nuclear migration and heterokaryosis in pairings between sibling homokaryons of *Heterobasidion annosum* 1275

Nuclei

Cytogenetic and biochemical aspects of the cellulolytic fungus *Humicola* sp. 169

Nutrition

Nutrient depletion and sporulation in the wet bubble pathogen *Mycogone perniciosa* 364

Effects of nutritional status of *Aspergillus nidulans* on its nuclease activity 792

Obituary

Obituary. Lilian E. Hawker, 19 May 1908–5 February 1991 1343

Odour composition

On the odour of *Tuber mesentericum* 1016

Oleoagaricus

Leucoagaricus weberi sp. nov. from a live nest of leaf-cutting ants 1308

Oligotrophy

Oxidation of thiosulphate by *Fusarium oxysporum* grown under oligotrophic conditions 1169

The quantity and fate of carbon assimilated from 14CO2 by *Fusarium oxysporum* grown under oligotrophic and near oligotrophic conditions 1345

Ophiostoma bicolor

Oxygen deficiency and spruce resin inhibition of growth of blue stain fungi associated with *Ips typographus* 1387

Ophiostoma davidsonii

Ultrastructure of ascosporogenesis in *Ophiostoma davidsonii* 725

Ophiostoma penicillatum

Oxygen deficiency and spruce resin inhibition of growth of blue stain fungi associated with *Ips typographus* 1387

Ophiostoma polonicum

Oxygen deficiency and spruce resin inhibition of growth of blue stain fungi associated with *Ips typographus* 1387

Ophiostoma ulmi
Evidence for an inositol lipid signal pathway in the yeast–mycelium transition of *Ophiostoma ulmi*, the Dutch elm disease fungus 484
Mitochondrial DNA restriction fragment length polymorphisms of aggressive and non-aggressive isolates of *Ophiostoma ulmi* 537
Opinion
Signs of sense: the IUMS Mycology Division Council Meeting in Osaka, Japan, September 1990 216
Comparisons are odious but very tempting 277
Osmotic sensitivity
Effect of osmotic stress on yield and polyol content of dicarboximide-sensitive and -resistant strains of *Neurospora crassa* 457
Paecilomyces
Coniochaeta cypraeaspora sp. nov. with a *Paecilomyces* conidial state 510
Comparison of chemical components of healthy and spoiled areca nut 747
Papularia
Comparison of chemical components of healthy and spoiled areca nut 747
Parasexual analysis
Parasexual analysis in the basidiomycete mushroom *Agrocybe aegerita* common-B and common-AB crosses 465
Parastenella
Parastenella, a new generic name for *Heterosporium magnoliae* 123
Parastenella magnoliae
Parastenella, a new generic name for *Heterosporium magnoliae* 123
Pathogenicity
Evaluation of the forma specialis concept in *Aphanomyces euteiches* 147
Biology and pathogenicity of *Rosellinia desmazieresii* 189
Factors influencing the germination of pathogenic and weakly pathogenic isolates of *Colletotrichum gloeosporioides* on leaf surfaces of *Stylosanthes guianensis* 227
Morphology and ultrastructure of W and R pathotypes of *Pseudocercosporella herpotrichoides* on wheat seedlings 385
Phomopsis phoenicola and *Fusarium equiseti*, new pathogens on date palm in Iraq 509
Presidential address 1989: Fungi and sugars – a suite of interactions 897
Identification and characterisation of isolates of *Typhula* causing snow rot of winter barley in the United Kingdom 995
Species of *Colletotrichum* on *Xanthium* (Asteraceae) with comments on some taxonomic and nomenclatural problems in *Colletotrichum* 1175
Pectic zymograms
Pectic isozyme profiles of intersterility groups in *Heterobasidion annosum* 531
Identification and characterisation of isolates of *Typhula* causing snow rot of winter barley in the United Kingdom 995
Pectin esterase
Extracellular hydrolytic enzyme production by pathogenic strains of *Fusarium oxysporum* f. sp. *elaeidis* 116
Penicillium
Distribution of ubiquinones in *Penicillium* and related genera 705
Use of API-Zym strips and 4-nitrophenyl substrates to detect and quantify hydrolytic enzymes in media and grain colonized with *Aspergillus*, *Eurotium* and *Penicillium* species 834
Penicillium aurantiogriseum
Nephrotoxic fungi in a Yugoslavian community in which the Balkan Nephropathy is hyperendemic 660
Penicillium cyclopium
Preparation of highly purified plasma membrane vesicles of controlled orientation from *Penicillium cyclopium* 1303
Penicillium islandicum
Immunocytochemical localisation of a specific antigen in cell walls of *Penicillium islandicum* 1369
Penicillium notatum
Uptake of zinc by *Penicillium notatum* 712
Penicillium vinaceum
Effects of *Tuber* metabolites on the rhizospheric environment 1355
Perca fluviatilis
Occurrence of the sewage fungus *Leptomitus lacteus*, a necrotroph on perch (*Perca fluviatilis*), in Windermere 755
Perenniporia fraxinophila
Cultural studies of four North American species of *Perenniporia* (Aphyllophorales: Polyporaceae) 1113
Perenniporia medulla-panis
Cultural studies of four North American species of *Perenniporia* (Aphyllophorales: Polyporaceae) 1113
Perenniporia ohiensis
Cultural studies of four North American species of *Perenniporia* (Aphyllophorales: Polyporaceae) 1113
Perenniporia phloiophila
Cultural studies of four North American species of *Perenniporia* (Aphyllophorales: Polyporaceae) 1113
Periconiella banksiae
Species of *Periconiella* and *Stenella* on Proteaceae in eastern Australia 924
Periconiella hakeae
Species of *Periconiella* and *Stenella* on Proteaceae in eastern Australia 924
Periconiella lomatiae
Species of *Periconiella* and *Stenella* on Proteaceae in eastern Australia 924
Peridermium pini
Axenic culture of *Peridermium pini* 108
Perithecial development
Ascospore development in *Ceratocystis moniliformis* 96
Peronospora destructor
Light and electron microscopical studies of interactions between *Allium* spp. and *Peronospora destructor* 278
Pesotum
Analysis of conidium ontogeny in anamorphs of *Ophiostoma*: *Pesotum* and *Phialographium* are synonyms of *Graphium* 1328
Petasol
Production of petasol by *Drechslera gigantea* in liquid culture 347
Pezicula
An echinocandin from an endophytic *Cryptosporiopsis* sp. and *Pezicula* sp. in *Pinus sylvestris* and *Fagus sylvatica* 1439
Pezizales
Taxonomy and population structure of E-strain mycorrhizal fungi inferred from ribosomal and mitochondrial DNA polymorphisms 866
pH
Calcium, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 64
Boron, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 74
Phaeoisariopsis williamsiae* var *norfolkensis
Species of *Phaeoisariopsis* and *Stenella* (Hyphomycetes) on *Wikstroemia* (Thymelaeaceae) 1005
Phaeoisariopsis williamsiae* var *williamsiae
Species of *Phaeoisariopsis* and *Stenella* (Hyphomycetes) on *Wikstroemia* (Thymelaeaceae) 1005
Phaeoramularia ougeiniae
Some new Hyphomycetes associated with leaf spots of trees in India 1163
Phaeoramularia pachirae
A new combination for *Cercospora pachirae* 767
Phanerochaete magnoliae
Ontogenetic stages from coenocyte to basidiome and their relation to phenoloxidase activity and colonization processes in *Phanerochaete magnoliae* 1414
Phellinus ralunensis
Phellinus ralunensis (Aphyllophorales; Hymenochaetaceae), a new white pocket rot species from Chile 769
Phenol oxidase
Oxidative coupling of 2,6-dimethoxyphenol by fungi and bacteria 526
Ontogenetic stages from coenocyte to basidiome and their relation to phenoloxidase activity and colonization processes in *Phanerochaete magnoliae* 1414
Phenotypic switching
Homokaryon-dikaryon phenotypic switching in an arginine requiring mutant of *Coprinus congregatus* 776
Phialogeniculata guadalcanalensis
Dictyochaeta guadalcanalensis (Matsh.) comb. nov. and several new records of the genus in Malaysia 1220
Phialographium
Analysis of conidium ontogeny in anamorphs of *Ophiostoma*: *Pesotum* and *Phialographium* are synonyms of *Graphium* 1328
Phleum pratense
Initial fungal community development on decomposing timothy (*Phleum pratense*) litter from a reclaimed coal-mine spoil in Alberta, Canada 14
Phloeospora aethiopica
Phloeospora aethiopica sp. nov. on *Acanthus* spp. from Ethiopia 1019
Phoenix dactylifera
Phomopsis phoenicola and *Fusarium equiseti*, new pathogens on date palm in Iraq 509
Phoma medicaginis* f. sp. *pinodella
Interactions between *Pythium oligandrum* and the fungal footrot pathogen of peas 861
Phoma sorghina
Occurrence of airborne spores of fungi causing grain mould over a sorghum crop 1315

Phomopsis leptostromiformis
Infraspecific variation demonstrated in *Phomopsis leptostromiformis* using cultural and biochemical techniques 320
Phomopsis mangrovei
Phomopsis mangrovei, from intertidal prop roots of *Rhizophora* spp. 1149
Phomopsis phoenicola
Phomopsis phoenicola and *Fusarium equiseti*, new pathogens on date palm in Iraq 509
Phosphates
Phosphate solubilizing fungi in a Scottish upland soil 1090
phosphoinositides
Phosphatidylinositol 4,5-bisphosphate (PIP_2) is present in *Fusarium graminearum* 1082
Phylogeny
Differentiation in Agaric basidiomata and phylogenetic problems 1249
Physcia stellaris
Cell wall structure and composition of cultured mycobionts from the lichens *Cladonia macrophylla*, *Cladonia caespiticia* and *Physcia stellaris* (Lecanorales, Ascomycetes) 905
Physiology
Presidential address 1989: Fungi and sugars – a suite of interactions 897
Morphological and physiological characters of two isolates of *Colletotrichum gloeosporioides* from rubber (*Hevea brasiliensis*) 1085
Phytoalexins
Relationship between conidial concentration, germling growth, and phytoalexin production by *Camelina sativa* leaves inoculated with *Alternaria brassicae* 928
Phytophthora
Isozyme comparison within and among worldwide sources of three morphologically distinct species of *Phytophthora* 19
Effects of dimethomorph on the morphology and ultrastructure of *Phytophthora* 333
A revised systematics of twelve papillate *Phytophthora* species based on isozyme analysis 1025
Phytophthora cactorum
The quantitative estimation of *Phytophthora cactorum* in infected stawberry tissue 233
Phytophthora cinnamomi
Ultrastructure of zoosporogenesis in *Phytophthora cinnamomi* 577
Phytophthora cryptogea
Taxonomic structure of *Phytophthora cryptogea* and *P. drechsleri* based on isozyme and mitochondrial DNA analysis 31
Phytophthora drechsleri
Taxonomic structure of *Phytophthora cryptogea* and *P. drechsleri* based on isozyme and mitochondrial DNA analysis 31
Phytophthora infestans
Variation in DNA content of nuclei of *Phytophthora infestans* as measured by a microfluorimetric method using the fluorochrome DAPI 602
Germ tube growth and the microtubule cytoskeleton in *Phytophthora infestans*: effects of antagonists of hyphal growth, microtubule inhibitors and ionophores 611
Non-lethal immobilization of zoospores of *Phytophthora infestans* by Li^+ 970
Inheritance of DNA contents in sexual progenies of *Phytophthora infestans* 1094
Phytophthora meadii
Phytophthora meadii may be a species hybrid 273
Picea abies
Characterization of naturally grown and *in vitro* synthesized ectomycorrhizas of *Hebeloma crustuliniforme* and *Picea abies* 1407
Pinus banksiana
Extracellular concanavalin A-binding sites during early interactions between *Pinus banksiana* and two closely related genotypes of the ectomycorrhizal basidiomycete *Laccaria bicolor* 357
Pinus radiata
Wilcoxina mikolae newly identified as a mycorrhizal fungus on pines in Africa 250
Pinus sylvestris
Axenic culture of *Peridermium pini* 108
Genetic variability and population structure in the canker pathogen *Crumenulopsis sororia* 521
An echinocandin from an endophytic *Cryptosporiopsis* sp. and *Pezicula* sp. in *Pinus sylvestris* and *Fagus sylvatica* 1439
Pisum sativum
Infection of pea epicotyls by *Mycosphaerella pinodes* 817
Interactions between *Pythium oligandrum* and the fungal footrot pathogen of peas 861
Plasmodia
Amylase as an extracellular enzyme from plasmodia of myxomycetes 885
Plasmodiophora brassicae
Calcium, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 64
Boron, pH and inoculum concentration influencing colonization by *Plasmodiophora brassicae* 74
A chitin assay for the enumeration of *Plasmodiophora brassicae* resting spores in clubroot tissue 879
Plasmopara halstedii
Developmental stage response to fungicides of *Plasmopara halstedii* (sunflower downy mildew) 199
Pleurotus cystidiosus
A comparative study of teleomorphs and anamorphs of *Pleurotus cystidiosus* and *Pleurotus smithii* 1264
Pleurotus sajor-caju
Involvement of endogenous glycogen in fruiting of *Volvariella volvacea* and *Pleurotus sajor-caju* 632
Pleurotus smithii
A comparative study of teleomorphs and anamorphs of *Pleurotus cystidiosus* and *Pleurotus smithii* 1264
Ploidy
Phytophthora meadii may be a species hybrid 273
Polyamine biosynthesis
Uptake of the polyamine biosynthesis inhibitor α-difluoromethylornithine by the plant pathogen fungus, *Fusarium culmorum* 621
Polyamines
Polyamine uptake by the plant pathogenic fungus, *Fusarium culmorum* 715
Polyamines of thermophilic moulds: distribution and effect of polyamine biosynthesis inhibitors on growth 915
polygalacturonase
Extracellular hydrolytic enzyme production by pathogenic strains of *Fusarium oxysporum* f. sp. *elaeidis* 116
Polyols
Effect of osmotic stress on yield and polyol content of dicarboximide-sensitive and -resistant strains of *Neurospora crassa* 457
Polyphenol oxidase
Effect of copper on tyrosinase activity and polyamine content of some ectomycorrhizal fungi 268
Polyporus varius
Conidia of *Polyporus varius* 246
Polysaccharide production
Ultrastructural detection of polysaccharides in the cell walls of two members of the Hyphochytriales 1057
Polytretophora calcarata
Polytretophora dendroidea sp. nov. and *P. calcarata* (Hyphomycetes) from Malaysia 623
Polytretophora dendroidea
Polytretophora dendroidea sp. nov. and *P. calcarata* (Hyphomycetes) from Malaysia 623
Population structure
Taxonomy and population structure of E-strain mycorrhizal fungi inferred from ribosomal and mitochondrial DNA polymorphisms 866
Population structure of *Monilinia fructicola* in *Prunus persica* var. *nucipersica* tree canopies 893
Potato
Infection of potato by *Spongospora subterranea* 762
Presidential address
Presidential address 1989: Fungi and sugars – a suite of interactions 897
Presidential address 1990: The fungal dimension of biodiversity: magnitude, significance, conservation 641
Propiconazole
The effects of the fungicide propiconazole (Tilt(R)) on the ground nut shell mycobiota 571
Propionic acid
Effects of acetic acid, propionic acid and urea on inoculum production by *Gibberella zeae* in maize and wheat residues 409
Protein profiles
Developmental regulation of proteins during fruit-body morphogenesis in *Sordaria brevicollis* 958
Protoplasts
Chitin synthetase activity in *Candida albicans*: subcellular distribution in yeast cells and protoplasts 513
Location of invertase in *Aspergillus nidulans*: release during hyphal wall digestion and secretion by protoplasts 1270

Prunus persica* var. *nucipersica
Population structure of *Monilinia fructicola* in *Prunus persica* var. *nucipersica* tree canopies 893
Pseudobeltrania guerensis
Pseudobeltrania guerensis sp. nov. from Ivory Coast forest litter 1017
Pseudocercospora bastiana
Some new species and a new combination in *Pseudocercospora* from India 401
Pseudocercospora duabangae
Some new Hyphomycetes associated with leaf spots of trees in India 1163
Pseudocercospora marasasii
Mycosphaerella marasasii sp. nov. and its *Pseudocercospora* anamorph on leaves of *Syzygium cordatum* 1108
Pseudocercospora miliusae
Some new Hyphomycetes associated with leaf spots of trees in India 1163
Pseudocercospora oxystelmatis
Some new species and a new combination in *Pseudocercospora* from India 401
Pseudocercospora scabrellae
New species of *Heteroconium*, *Pseudocercospora* and *Stenella* from India 1070
Pseudocercospora toonae
Some new Hyphomycetes associated with leaf spots of trees in India 1163
Pseudocercospora trichoxanthidicola
Some new species and a new combination in *Pseudocercospora* from India 401
Pseudocercosporella capsellae
The biology of *Mycosphaerella capsellae* sp. nov., the teleomorph of *Pseudocercosporella capsellae*, cause of white leaf spot of oil seed rape 1334
Pseudocercosporella herpotrichoides
Problems in identifying pathogenicity types of *Pseudocercosporella herpotrichoides* by colony morphology arising from the source and concentration of the nutrient agar 253
Morphology and ultrastructure of W and R pathotypes of *Pseudocercosporella herpotrichoides* on wheat seedlings 385
Pseudocercosporella tetradeniae
Pseudocercosporella tetradeniae sp. nov. on leaves of *Tetradenia* from Zimbabwe 1023
Pseudomonas lemonnieri
Oxidative coupling of 2,6-dimethoxyphenol by fungi and bacteria 526
Pseudomonas putida
Effect of *Pseudomonas putida* on hyphal growth of *Agaricus bisporus* 699
Psilocybe auklandii
A new species of *Psilocybe* of section *Zapotecorum* from New Zealand 507
Puccinia paullula* f. sp. *amorphophalli
Rust of *Monstera deliciosa* in Australia 665
Puccinia paullula* f. sp. *monsterae
Rust of *Monstera deliciosa* in Australia 665
Puccinia ursiniae
Puccinia ursiniae sp. nov. on *Ursinia anthemoides* 379
Pueraria phaseoloides
Observations on the genus *Aristastoma* 1151
Pyrenophora tritici-repentis
Effect of water potential on microbial antagonism to *Pyrenophora tritici-repentis* in wheat residue 308
Pythium
A model for short-term fluctuations of *Pythium* propagules in soil 324
Video microscopical comparison of mycoparasitism by *Pythium oligandrum*, *P. nunn* and an unnamed *Pythium* species 469
Comparisons of soluble proteins and isozymes for seven *Pythium* species and applications of the biochemical data to *Pythium* systematics 548
Pythium nunn
Video microscopical comparison of mycoparasitism by *Pythium oligandrum*, *P. nunn* and an unnamed *Pythium* species 469
Pythium oligandrum
Video microscopical comparison of mycoparasitism by *Pythium oligandrum*, *P. nunn* and an unnamed *Pythium* species 469
Interactions between *Pythium oligandrum* and the fungal footrot pathogen of peas 861
Pythium splendens
Hormonal regulation of sexual reproduction and mating type change in heterothallic *Pythium splendens* 452
Quantitative estimation
The quantitative estimation of *Phytophthora cactorum* in infected stawberry tissue 233
Radiocaesium contamination
Influx of ^{137}Cs into hyphae of basidiomycete fungi 1047
Uptake and accumulation of ^{137}Cs by upland grassland soil fungi: a potential pool of Cs immobilization 1052
Restriction fragment length polymorphisms
Mitochondrial DNA polymorphisms in *Laccaria bicolor*, *L. laccata*, *L. proxima* and *L. amethystina* 206
Mitochondrial DNA restriction fragment length polymorphisms of aggressive and non-aggressive isolates of *Ophiostoma ulmi* 537
Molecular variation and restriction fragment length polymorphisms (RFLPs) within and between six species of *Verticillium* 935
Rhizanthella gardneri
The *Rhizoctonia* endophytes of *Rhizanthella* (Orchidaceae) 656
Rhizoctonia
The *Rhizoctonia* endophytes of *Rhizanthella* (Orchidaceae) 656
Rhizoctonia cerealis
Antagonism by sugars of the effects of validamycin A on growth and morphology of *Rhizoctonia cerealis* 129
Rhizoctonia solani
Biochemical and serological comparison of lectins from different anastomosis groups of *Rhizoctonia solani* 1235
Rhizomorphs
Internal structure of rhizomorphs associated with basidiocarps of *Trechispora vaga* 764
Rhizomorph structure and development in *Marasmius crinisequi* 1249
Rhizophora apiculata
Phomopsis mangrovei, from intertidal prop roots of *Rhizophora* spp. 1149
Rhodotorula
Yeasts associated with lamb 57
Rhytidospora bispora
Two interesting coprophilous fungi from Spain 243
Rosellinia desmazieresii
Biology and pathogenicity of *Rosellinia desmazieresii* 189
Ruhlandiella berolinensis
The fungi forming mycorrhizas on eucalypt seedlings in regeneration coupes in Tasmania 329
Russula
Effects of litter treatments on the sporophore production of beech forest macrofungi 1137
Salix repens
Biology and pathogenicity of *Rosellinia desmazieresii* 189
Sand dunes
The spatial dispersion of spores of vesicular-arbuscular mycorrhizal fungi in a sand dune: microscale patterns associated with the root architecture of American beechgrass 952
Sclerotia
Interactions between *Coniothyrium minitans* and sclerotia 295
Parasitic interactions between *Claviceps purpurea* strains in wheat and an acute necrotic host response 807
Radiolabel distribution into stromata of *Claviceps purpurea* from sclerotia pulse-labelled parasitically with ^{14}C 1402
Sclerotial production
Effect of sucrose concentration on sclerotia production and subsequent apothecial formation by *Sclerotinia sclerotiorum* 195
Sclerotinia sclerotiorum
Effect of sucrose concentration on sclerotia production and subsequent apothecial formation by *Sclerotinia sclerotiorum* 195
Sclerotium cepivorum
In vitro screening for the identification of potential biocontrol agents of *Allium* white rot 430
Scolytus multistriatus
Michenera artocreas in elm wood infested with *Scolytis multistriatus* in Australia 761
Scutellospora auriglobosa
Lectotypification of *Scutellospora auriglobosa* (Glomales) 398
Scytalone
Genetic analysis and characterization of *Cochliobolus heterostrophus* colour mutants 49
Secondary metabolism
Benefactors' Lecture: The impact of molecular biology on mycology 9
Secondary metabolites
Production of petasol by *Drechslera gigantea* in liquid culture 347
Selective media
Lithium chloride as a selective inhibitor of *Trichoderma* species on soil isolation plates 1364

Selective medium
A selective medium for the isolation and enumeration of *Mucor* species 373
Septation
Ultrastructural observations on Helvellaceae (Pezizales, Ascomycetes). V. Septal structures in *Gyromitra* 421
Serotaxonomy
Biochemical and serological comparison of lectins from different anastomosis groups of *Rhizoctonia solani* 1235
Serpula lacrymans
A simple method for producing basidiomes of *Serpula lacrymans* in culture 375
The role of droplets in helping to maintain a constant growth rate of aerial hyphae 883
Monokaryon pairings of the dry rot fungus *Serpula lacrymans* 1382
Studies of *Serpula lacrymans* mycelial antigens by Western blotting techniques 1423
Sewage fungus
Occurrence of the sewage fungus *Leptomitus lacteus*, a necrotroph on perch (*Perca fluviatilis*), in Windermere 755
Sexual reproduction
Hormonal regulation of sexual reproduction and mating type change in heterothallic *Pythium splendens* 452
Inheritance of DNA contents in sexual progenies of *Phytophthora infestans* 1094
Soil fungi
A model for short-term fluctuations of *Pythium* propagules in soil 324
Uptake and accumulation of ^{137}Cs by upland grassland soil fungi: a potential pool of Cs immobilization 1052
Phosphate solubilizing fungi in a Scottish upland soil 1090
Solenopsis invicta
Myrmecomyces annellisae gen. nov., sp. nov. (Deuteromycotina: Hyphomycetes), an endoparasitic fungus of fire ants, *Solenopsis* spp. (Hymenoptera: Formicidae) 1395
Solenopsis richteri
Myrmecomyces annellisae gen. nov., sp. nov. (Deuteromycotina: Hyphomycetes), an endoparasitic fungus of fire ants, *Solenopsis* spp. (Hymenoptera: Formicidae) 1395
Sordaria brevicollis
Developmental regulation of proteins during fruit-body morphogenesis in *Sordaria brevicollis* 958
Sorghi bicoloris
Claviceps africana sp. nov.; the distinctive ergot pathogen of sorghum in Africa 1101
Sorghum
Occurrence of airborne spores of fungi causing grain mould over a sorghum crop 1315
Spadicoides cava
Two new species of *Spadicoides* from Malaysia 163
Spadicoides obclavata
Two new species of *Spadicoides* from Malaysia 163
Spoilage
Comparison of chemical components of healthy and spoiled areca nut 747
Spongospora subterranea
Infection of potato by *Spongospora subterranea* 762
Spore density
Changes in the concentration of aquatic hyphomycete spores in Lees Creek, ACT, Australia 178
A dynamic model of fungal spores in a freshwater stream 184
Spore germination
Factors influencing the germination of pathogenic and weakly pathogenic isolates of *Colletotrichum gloeosporioides* on leaf surfaces of *Stylosanthes guianensis* 227
Induction of germination of spores of *Allomyces macrogynus* by small peptides 1261
Sporodochia
Cultural studies on the genus *Termitomyces* in South Africa. II. Macro- and micromorphology of comb sporodochia 444
Sporophore production
Effects of litter treatments on the sporophore production of beech forest macrofungi 1137
Sporulation
Nutrient depletion and sporulation in the wet bubble pathogen *Mycogone perniciosa* 364
Staining procedures
A safer procedure for routine staining of vesicular-arbuscular mycorrhizal fungi 1160
A modified method for elucidating the structure of the fungal partner in a vesicular arbuscular mycorrhiza 1435
Stemphylium botryosum
Synthesis and biological activity of stemtoxin by *Stemphylium botryosum* and related fungi 566
Stemtoxin
Synthesis and biological activity of stemtoxin by *Stemphylium botryosum* and related fungi 566
Stenella crotalariicola
New species of *Heteroconium*, *Pseudocercospora* and *Stenella* from India 1070
Stenella wikstroemiae
Species of *Phaeoisariopsis* and *Stenella* (Hyphomycetes) on *Wikstroemia* (Thymelaeaceae) 1005
Sterigmatobotrys uniseptata
Sterigmatobotrys uniseptata sp. nov. from Taiwan 1142
Stochastic model
A model for short-term fluctuations of *Pythium* propagules in soil 324
Storage fungi
Use of API-Zym strips and 4-nitrophenyl substrates to detect and quantify hydrolytic enzymes in media and grain colonized with *Aspergillus*, *Eurotium* and *Penicillium* species 834
Stylosanthes guianensis
Factors influencing the germination of pathogenic and weakly pathogenic isolates of *Colletotrichum gloeosporioides* on leaf surfaces of *Stylosanthes guianensis* 227
Systematics
Systematics of *Itersoniella*: a comparative study 135
Comparisons of soluble proteins and isozymes for seven *Pythium* species and applications of the biochemical data to *Pythium* systematics 548
Fatty acid composition and taxonomic status of *Ganoderma australe* from Southern Chile. 782
Presidential address 1989: Fungi and sugars – a suite of interactions 897
Molecular variation and restriction fragment length polymorphisms (RFLPs) within and between six species of *Verticillium* 935
A revised systematics of twelve papillate *Phytophthora* species based on isozyme analysis 1025
Syzygium cordatum
Mycosphaerella marasasii sp. nov. and its *Pseudocercospora* anamorph on leaves of *Syzygium cordatum* 1108
Tandonea
Tandonea, a new Coelomycete genus causing leaf spotting and blight in *Eubucklandia populnea* from India 1074
Tandonea dargentiana
Tandonea, a new Coelomycete genus causing leaf spotting and blight in *Eubucklandia populnea* from India 1074
Taphrophila argyllensis
Taphrophila (Tubeufiaceae, Dothideales) and two species of *Tubeufia* with dark setae 811
Taphrophila cornu-capreoli
Taphrophila (Tubeufiaceae, Dothideales) and two species of *Tubeufia* with dark setae 811
Taxonomy
Benefactors' Lecture: The impact of molecular biology on mycology 9
Isozyme comparison within and among worldwide sources of three morphologically distinct species of *Phytophthora* 19
Taxonomic structure of *Phytophthora cryptogea* and *P. drechsleri* based on isozyme and mitochondrial DNA analysis 31
Species of *Colletotrichum* on *Xanthium* (Asteraceae) with comments on some taxonomic and nomenclatural problems in *Colletotrichum* 1175
Teleomorphs
Massarina tetraploa sp. nov., the teleomorph of *Tetraploa aristata* 126
A *Valsa* teleomorph for *Cytospora eucalypticola* 1253
A comparative study of teleomorphs and anamorphs of *Pleurotus cystidiosus* and *Pleurotus smithii* 1264
Termitomyces
Cultural studies on the genus *Termitomyces* in South Africa. I. Macro- and microscopic characters of basidiome context cultures 435
Cultural studies on the genus *Termitomyces* in South Africa. II. Macro- and micromorphology of comb sporodochia 444
Tetradenia
Pseudocercosporella tetradeniae sp. nov. on leaves of *Tetradenia* from Zimbabwe 1023
Tetraploa aristata
Massarina tetraploa sp. nov., the teleomorph of *Tetraploa aristata* 126
Teubeufia hebridensis
Taphrophila (Tubeufiaceae, Dothideales) and two species of *Tubeufia* with dark setae 811
Thanatephorus cucumeris
Biochemical and serological comparison of lectins from different anastomosis groups of *Rhizoctonia solani* 1235

Thanatephorus gardneri
The *Rhizoctonia* endophytes of *Rhizanthella* (Orchidaceae) 656
Thermophilic fungi
Polyamines of thermophilic moulds: distribution and effect of polyamine biosynthesis inhibitors on growth 915
Thiosulphate oxidation
Oxidation of thiosulphate by *Fusarium oxysporum* grown under oligotrophic conditions 1169
Tilletiopsis
Liberation of ballistospores in *Tilletiopsis* 1393
Tolypocladium geodes
Phosphate solubilizing fungi in a Scottish upland soil 1090
Trametes versicolor
Oxidative coupling of 2,6-dimethoxyphenol by fungi and bacteria 526
Trechispora vaga
Internal structure of rhizomorphs associated with basidiocarps of *Trechispora vaga* 764
Trichoderma
Comparison of chemical components of healthy and spoiled areca nut 747
Lithium chloride as a selective inhibitor of *Trichoderma* species on soil isolation plates 1364
Trichophyton verrucosum
Antifugal activity in crude extracts of marine red algae 1433
Trichosporon pullulans
Screening of yeasts isolated from decayed wood for lignocellulose-degrading enzyme activities 1299
Tricladium splendens
Aquatic hyphomycete communities in the river Teign. IV. Twig colonization 413
Triposporium lambdaseptatum
A new species of *Ceratosporella* and *Triposporium lambdaseptatum* (Matsush.) comb nov. from Malaysia 158
Tuber
Insect attraction by *Tuber*: a chemical explanation 1359
Tuber aestivum
Effects of *Tuber* metabolites on the rhizospheric environment 1355
Tuber melanosporum
Effects of *Tuber* metabolites on the rhizospheric environment 1355
Tuber mesentericum
On the odour of *Tuber mesentericum* 1016
Tubeufia trichella
Taphrophila (Tubeufiaceae, Dothideales) and two species of *Tubeufia* with dark setae 811
Tulasnellaceae
Monosporonella, a new genus in the Tulasnellaceae, Basidiomycetes 377
Turgor pressure
The role of droplets in helping to maintain a constant growth rate of aerial hyphae 883
Tween
The effect of Junlon PW110 and Tween 80 on the production of cellulolytic enzymes by *Coprinus cinereus* 1077
Tylophoron moderatum
The anamorph of *Tylophoron moderatum* 290
Tylospora fibrillosa
Ectomycorrhizal synthesis with *Tylospora fibrillosa*, a member of the Corticiaceae 381
Typhula
Identification and characterisation of isolates of *Typhula* causing snow rot of winter barley in the United Kingdom 995
Tyrosinase
Effect of copper on tyrosinase activity and polyamine content of some ectomycorrhizal fungi 268
Ubiquinone
Identification of ubiquinone isoprenologues in *Apiotrichum porosum* and a strain of *Candida humicola* 639
Ubiquinones
Distribution of ubiquinones in *Penicillium* and related genera 705
Ulmus procera
Michenera artocreas in elm wood infested with *Scolytis multistriatus* in Australia 761
Ultrastructure
Ascospore development in *Ceratocystis moniliformis* 96
Systematics of *Itersoniella*: a comparative study 135
Light and electron microscopical studies of interactions between *Allium* spp. and *Peronospora destructor* 278
Development of microconidia in *Fusarium* section Sporotrichiella 284
Effects of dimethomorph on the morphology and ultrastructure of *Phytophthora* 333
Extracellular concanavalin A-binding sites during early interactions between *Pinus banksiana* and two closely related genotypes of the ectomycorrhizal basidiomycete *Laccaria bicolor* 357
Morphology and ultrastructure of W and R pathotypes of *Pseudocercosporella herpotrichoides* on wheat seedlings 385
Ultrastructural observations on Helvellaceae (Pezizales, Ascomycetes). V. Septal structures in *Gyromitra* 421
Ultrastructure of zoosporogenesis in *Phytophthora cinnamomi* 577
Germ tube growth and the microtubule cytoskeleton in *Phytophthora infestans*: effects of antagonists of hyphal growth, microtubule inhibitors and ionophores 611
Ultrastructure of ascosporogenesis in *Ophiostoma davidsonii* 725
Internal structure of rhizomorphs associated with basidiocarps of *Trechispora vaga* 764
Morphogenesis and ultrastructure of the conidiomata of *Ascochyta cypericola* 785
Ultrastructural detection of polysaccharides in the cell walls of two members of the Hyphochytriales 1057
Structure of the capitate aerial organs of *Mycena cystidiosa* 1065
Ultrastructure of the haustoria of *Meliola sandwicensis* 1208
Urea
Effects of acetic acid, propionic acid and urea on inoculum production by *Gibberella zeae* in maize and wheat residues 409
Ursinia anthemoides
Puccinia ursiniae sp. nov. on *Ursinia anthemoides* 379
Validamycin A
Antagonism by sugars of the effects of validamycin A on growth and morphology of *Rhizoctonia cerealis* 129
Valsa ceratosperma
A *Valsa* teleomorph for *Cytospora eucalypticola* 1253
Verticillium
Molecular variation and restriction fragment length polymorphisms (RFLPs) within and between six species of *Verticillium* 935
Vesicles
Preparation of highly purified plasma membrane vesicles of controlled orientation from *Penicillium cyclopium* 1303
Vesicular-arbuscular mycorrhizas
Use of hydrogel as a sticking agent and carrier for vesicular-arbuscular mycorrhizal fungi 427
Effect of photon irradiance on the development and activity of VA mycorrhizal infection in *Allium porrum* 741
The spatial dispersion of spores of vesicular-arbuscular mycorrhizal fungi in a sand dune: microscale patterns associated with the root architecture of American beechgrass 952
A safer procedure for routine staining of vesicular-arbuscular mycorrhizal fungi 1160
A modified method for elucidating the structure of the fungal partner in a vesicular arbuscular mycorrhiza 1435
The entrapment of *Glomus* sp. in alginate beads and their use as root inoculum 1194
Video microscopy
Video microscopical comparison of mycoparasitism by *Pythium oligandrum*, *P. nunn* and an unnamed *Pythium* species 469
Vinclozolin
Genetic basis of resistance to benzimidazole and dicarboximide fungicides in *Botryotinia fuckeliana* (*Botrytis cinerea*) 943
Virulence
Influence of cultural conditions on the virulence of conidia and blastospores of *Beauveria bassiana* to the green leaf hopper, *Nephotettix virescens* 829
Volatile compounds
The influence of volatile metabolites from *Geotrichum candidum* on other fungi 891
Effects of *Tuber* metabolites on the rhizospheric environment 1355
Volvariella volvacea
Involvement of endogenous glycogen in fruiting of *Volvariella volvacea* and *Pleurotus sajor-caju* 632
Wall structure
Analysis of the polypeptide composition of the cell walls of *Neurospora crassa*. Similarities with the proteinaceous material secreted by the slime variant 315
Water potential
Effect of water potential on microbial antagonism to *Pyrenophora tritici-repentis* in wheat residue 308
White rot fungi
Phellinus ralunensis (Aphyllophorales; Hymenochaetaceae), a new white pocket rot species from Chile 769
Wilcoxina mikolae
Wilcoxina mikolae newly identified as a mycorrhizal fungus on pines in Africa 250

Taxonomy and population structure of E-strain mycorrhizal fungi inferred from ribosomal and mitochondrial DNA polymorphisms 866
Wilcoxina rehmii
Taxonomy and population structure of E-strain mycorrhizal fungi inferred from ribosomal and mitochondrial DNA polymorphisms 866
Wood decay fungi
Screening of yeasts isolated from decayed wood for lignocellulose-degrading enzyme activities 1299
Xanthium
Species of *Colletotrichum* on *Xanthium* (Asteraceae) with comments on some taxonomic and nomenclatural problems in *Colletotrichum* 1175
Xylanolytic activity
The effect of Junlon PW110 and Tween 80 on the production of cellulolytic enzymes by *Coprinus cinereus* 1077
Yeast-like growth
Systematics of *Ilersoniella*: a comparative study 135
Yeasts
Yeasts associated with lamb 57
Screening of yeasts isolated from decayed wood for lignocellulose-degrading enzyme activities 1299
Yeast–mycelium transition
Evidence for an inositol lipid signal pathway in the yeast–mycelium transition of *Ophiostoma ulmi*, the Dutch elm disease fungus 484
Zalerion arboricola
An echinocandin from an endophytic *Cryptosporiopsis* sp. and *Pezicula* sp. in *Pinus sylvestris* and *Fagus sylvatica* 1439
Zinc
Uptake of zinc by *Penicillium notatum* 712
Zoospore mobility
Non-lethal immobilization of zoospores of *Phytophthora infestans* by Li+ 970
Zoospore production
Ultrastructure of zoosporogenesis in *Phytophthora cinnamomi* 577
Zoospore release
Allomyces zoospores synchronously released in high yields for deoxyribonucleic acid analysis 492
